Public private partnership

This graphic above shows connections between the Gates Foundation, Wellcome Trust, WHO, GAVI and other NGOs and Big Pharma... It contains round about 6500 objects including like Persons, NGOs, Companies, Documents, etc. It also includes more than 7200 links between them.

All information is publicly available.

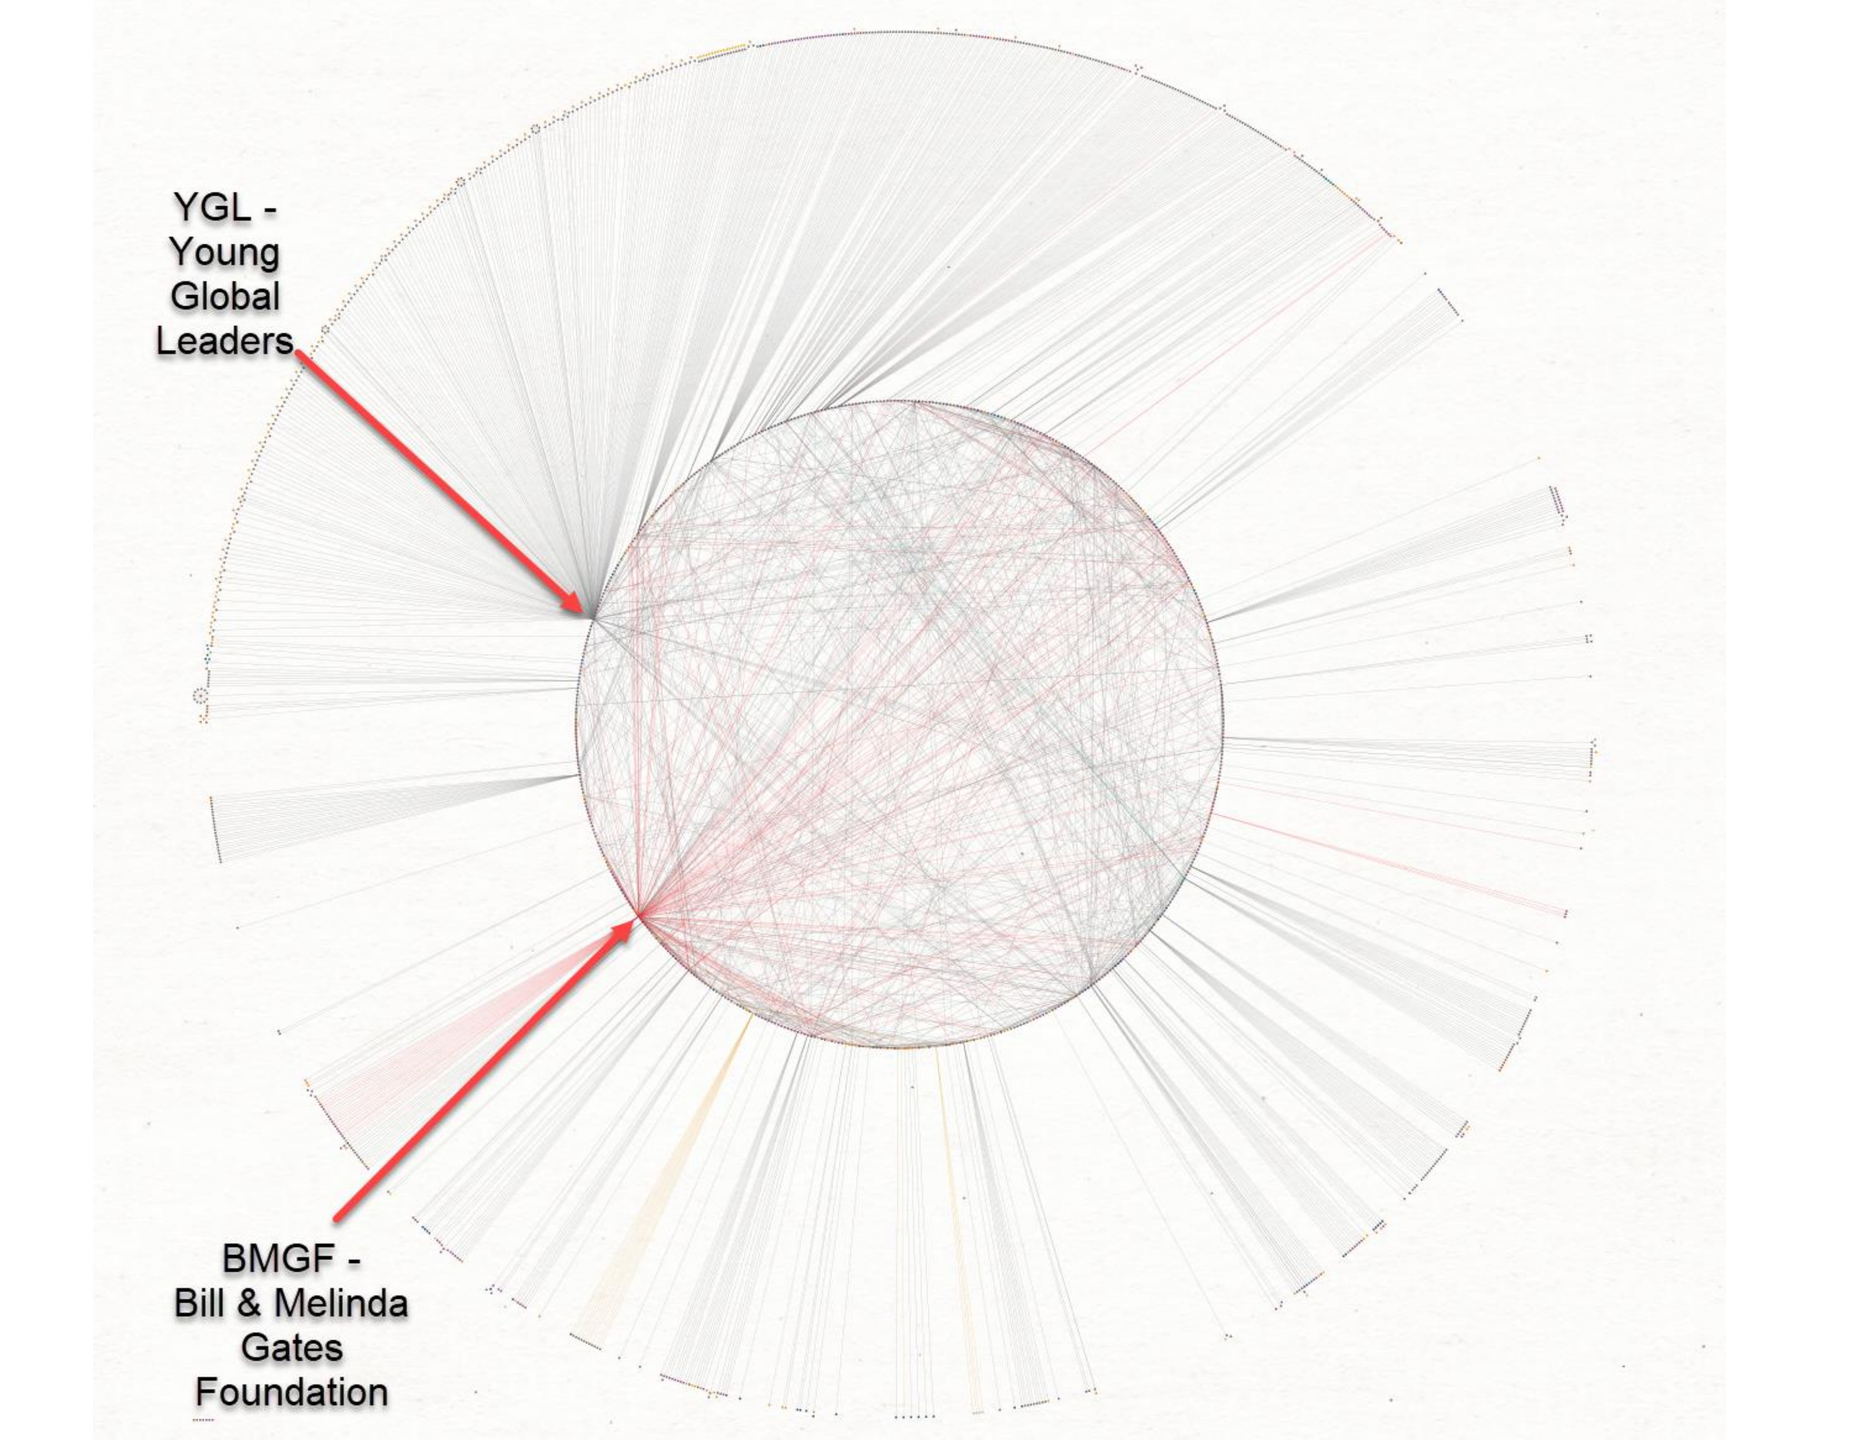

The following slides presents some selected organizations from this graphic. Cause of the complexity it shows mostly only the first level of connection.

First, you will get some general information about people from government agencies, companies and non-governmental organizations, as well as some important events or groups. Further on in this document you will find a link analysis of these "stakeholders".

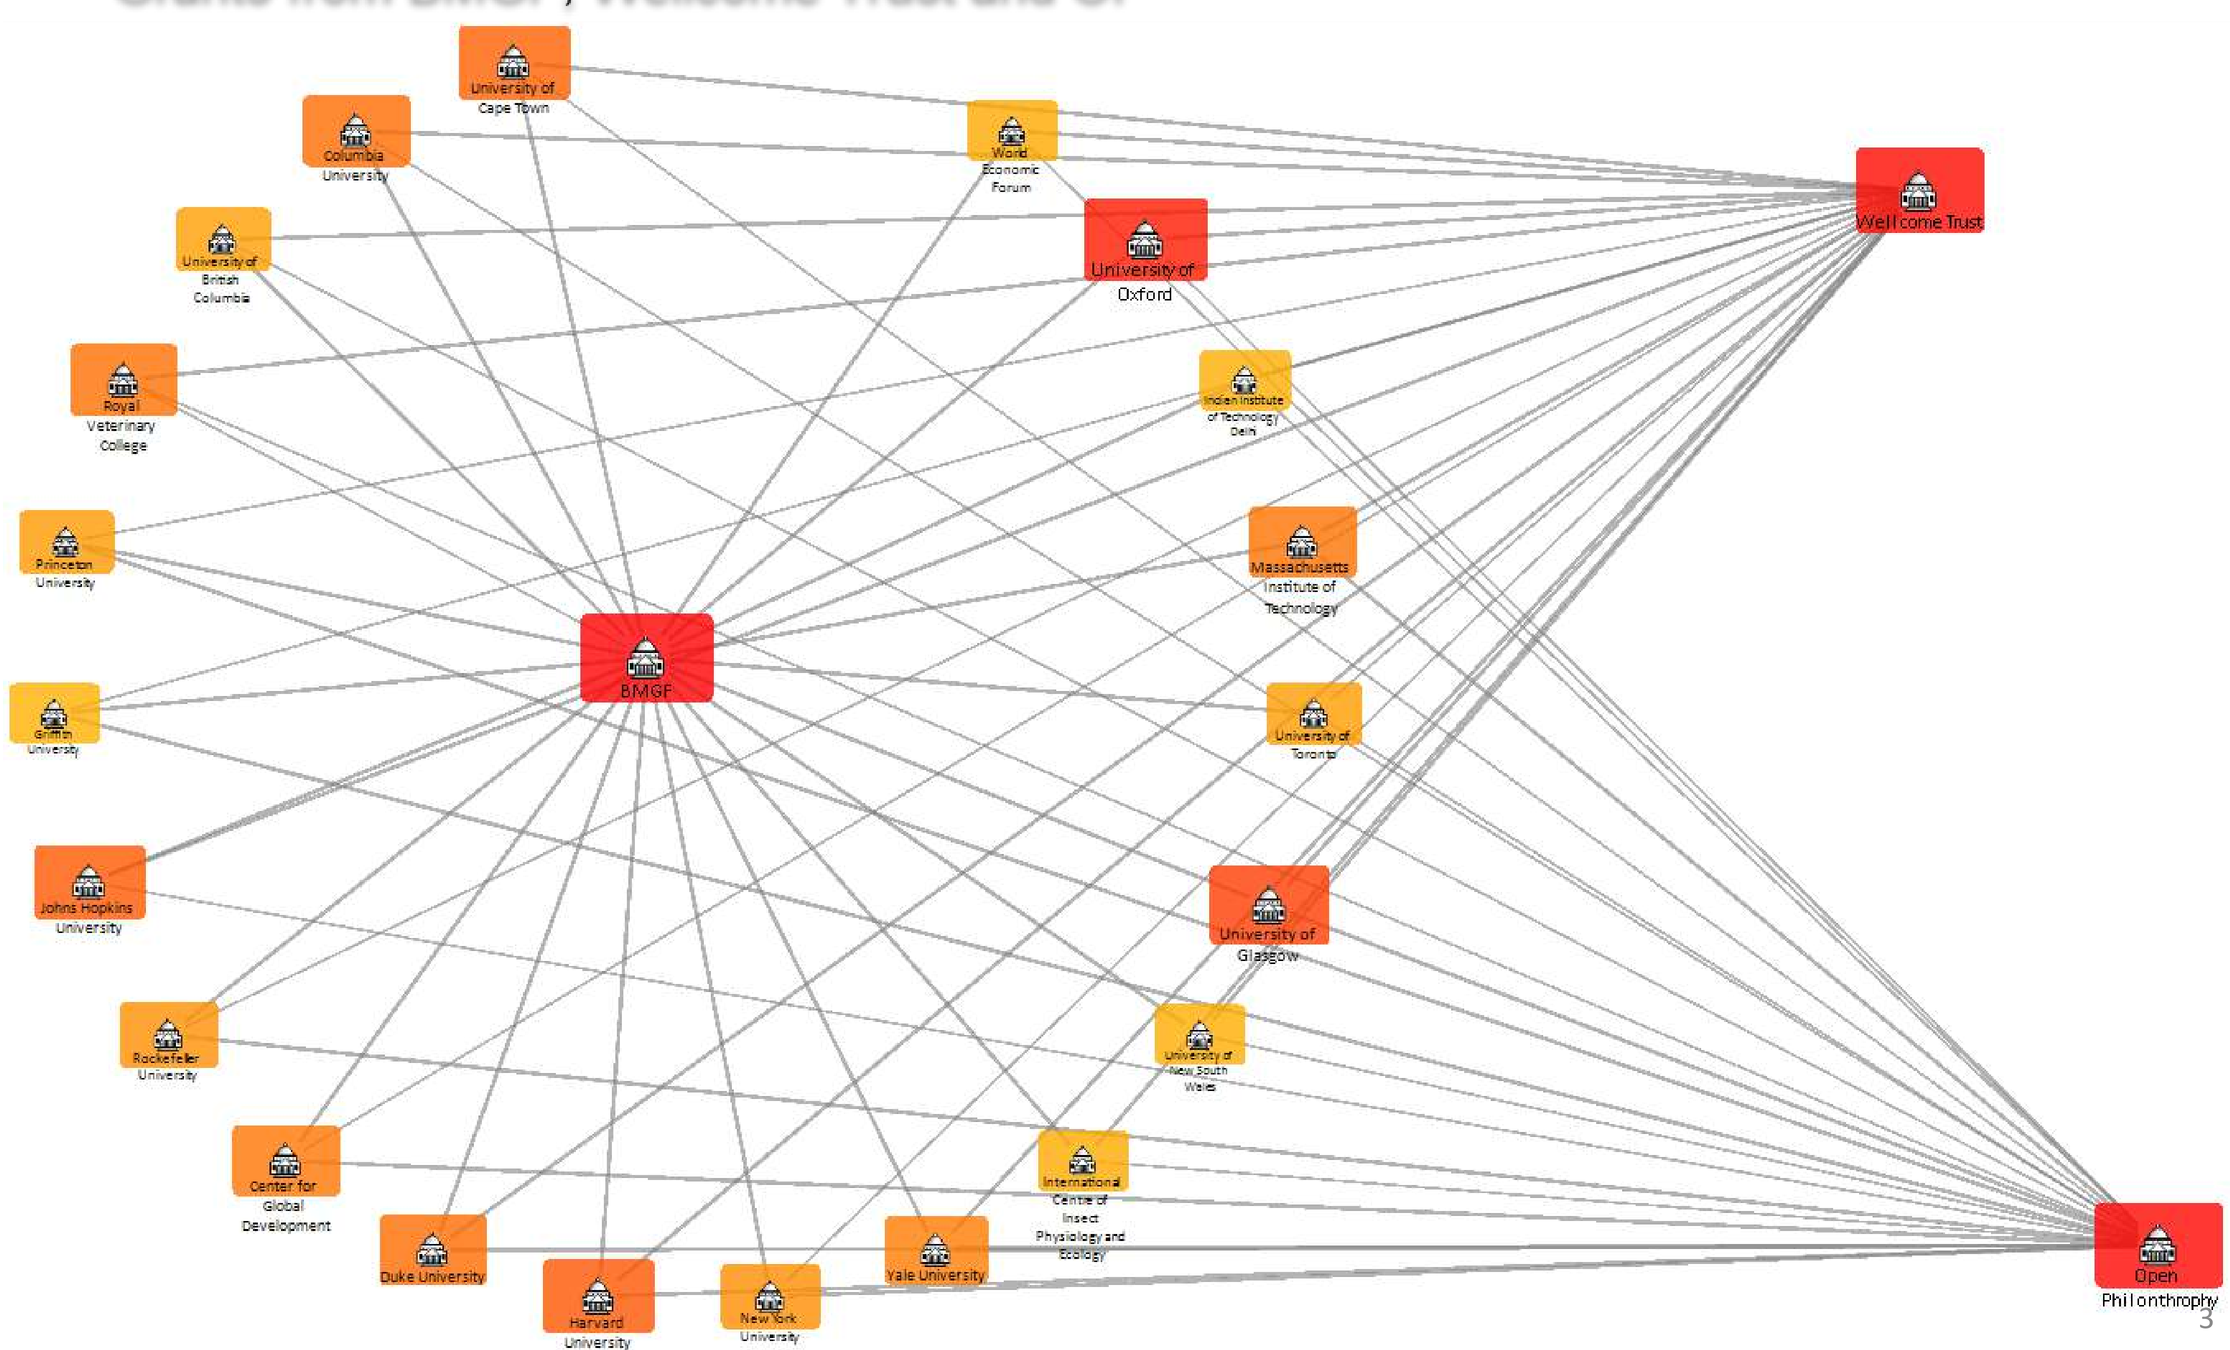

The red lines are always payments, but there might be also some black lines are payments as well. Please see link description.

Please make your own opinion and do your own research!

World Economic Forum (WEF)

“The World Economic Forum
The World Economic Forum is the International Organization for Public-Private Cooperation.
The Forum engages the foremost political, business, cultural and other leaders of society to shape global, regional and industry agendas.
It was established in 1971 as a not-for-profit foundation and is headquartered in Geneva, Switzerland. It is independent, impartial and not tied to any special interests. The Forum strives in all its efforts to demonstrate entrepreneurship in the global public interest while upholding the highest standards of governance. Moral and intellectual integrity is at the heart of everything it does.
Our activities are shaped by a unique institutional culture founded on the stakeholder theory, which asserts that an organization is accountable to all parts of society. The institution carefully blends and balances the best of many kinds of organizations, from both the public and private sectors, international organizations and academic institutions.
We believe that progress happens by bringing together people from all walks of life who have the drive and the influence to make positive change.
Read the latest Annual Report here. Find out about our Foundation Regulations and Statutes.”

https://www.weforum.org/about/world-economic-forum

“World Economic Forum Partners are leading global companies developing solutions to the world’s greatest challenges. They are the driving force behind the Forum’s programmes.
Our Partners engage in Forum Platforms to shape the future, accessing networks and experts to ensure strategic decision-making on the most pressing world issues.”

GAVI has full immunity in Switzerland

Abkommen

zwischen dem **Schweizerischen Bundesrat** und **GAVI Alliance** (Global Alliance for Vaccines and Immunization) zur Regelung des rechtlichen Statuts von GAVI Alliance in der Schweiz

https://www.fedlex.admin.ch/eli/cc/2009/541/de

(Stand am 1. Januar 2009)

[1] Der Originaltext findet sich unter der gleichen Nummer in der französischen Ausgabe dieser Sammlung.

Der Schweizerische Bundesrat

einerseits

und

GAVI Alliance (Global Alliance for Vaccines and Immunization)

anderseits,

in dem Wunsche, ihre Beziehungen in einem Sitzabkommen zu regeln,

sind wie folgt übereingekommen:

I. Statut, Vorrechte und Immunitäten von GAVI Alliance

Art. 1 Persönlichkeit und Rechtsfähigkeit

Der Schweizerische Bundesrat anerkennt die internationale Rechtspersönlichkeit und die Rechtsfähigkeit von GAVI Alliance in der Schweiz.

Art. 2 Unabhängigkeit und Handlungsfreiheit

1. Der Schweizerische Bundesrat garantiert GAVI Alliance Unabhängigkeit und Handlungsfreiheit.

2. Er gewährt ihr die uneingeschränkte Versammlungsfreiheit, einschliesslich der Rede-, Beschluss- und Publikationsfreiheit, auf dem Hoheitsgebiet der Schweiz.

Art. 3 Unverletzbarkeit der Räumlichkeiten

Die Gebäude oder Gebäudeteile und das anliegende Gelände, die von GAVI Alliance für ihre eigenen Zwecke benützt werden, sind ungeachtet der herrschenden Eigentumsverhältnisse unverletzbar. Kein Vertreter schweizerischer Behörden darf sie ohne ausdrückliche Zustimmung des Exekutivdirektors von GAVI Alliance oder der von ihm bezeichneten Person betreten.

Art. 4 Unverletzbarkeit der Archive

Die Archive von GAVI Alliance und alle ihr gehörenden oder in ihrem Besitz befindlichen Dokumente und Datenträger ganz allgemein sind jederzeit und überall unverletzbar.

Art. 5 Immunität von der Gerichtsbarkeit und der Vollstreckung

1. Im Rahmen ihrer Tätigkeit geniesst GAVI Alliance Immunität von der Gerichtsbarkeit und der Vollstreckung, ausser:

a) wenn diese Befreiung im Einzelfall vom Exekutivdirektor oder durch die von ihm bezeichnete Person ausdrücklich aufgehoben worden ist;

b) im Falle einer gegen GAVI Alliance angestrengten zivilrechtlichen Haftungsklage wegen eines Schadens, der durch ein GAVI Alliance gehörendes oder auf ihre Rechnung betriebenes Kraftfahrzeug verursacht wurde;

c) im Falle einer durch richterlichen Entscheid angeordneten Beschlagnahme von Gehältern, Löhnen und anderen Bezügen, welche GAVI Alliance einem ihrer Beamten schuldet;

d) im Falle einer Widerklage, die in unmittelbarem Zusammenhang mit einer von GAVI Alliance erhobenen Hauptklage steht; und

e) im Falle der Vollstreckung einer schiedsrichterlichen Entscheidung, welche in Anwendung von Artikel 29 dieses Abkommens gefällt wurde.

2. Die Gebäude oder Gebäudeteile, das anliegende Gelände sowie die Vermögenswerte, die sich im Eigentum von GAVI Alliance befinden oder von ihr zu ihren Zwecken benutzt werden, sind unabhängig von ihrem Standort und ihrem Besitzer befreit von:

a) jeglicher Form von Requisition, Beschlagnahme oder Enteignung;

b) jeglicher Form von Zwangsvollstreckung, anderen behördlichen Zwangsmassnahmen oder Massnahmen, die einem Urteil vorausgehen, mit Ausnahme der in Absatz 1 vorgesehenen Fälle.

Art. 6 Veröffentlichungen und Mitteilungen

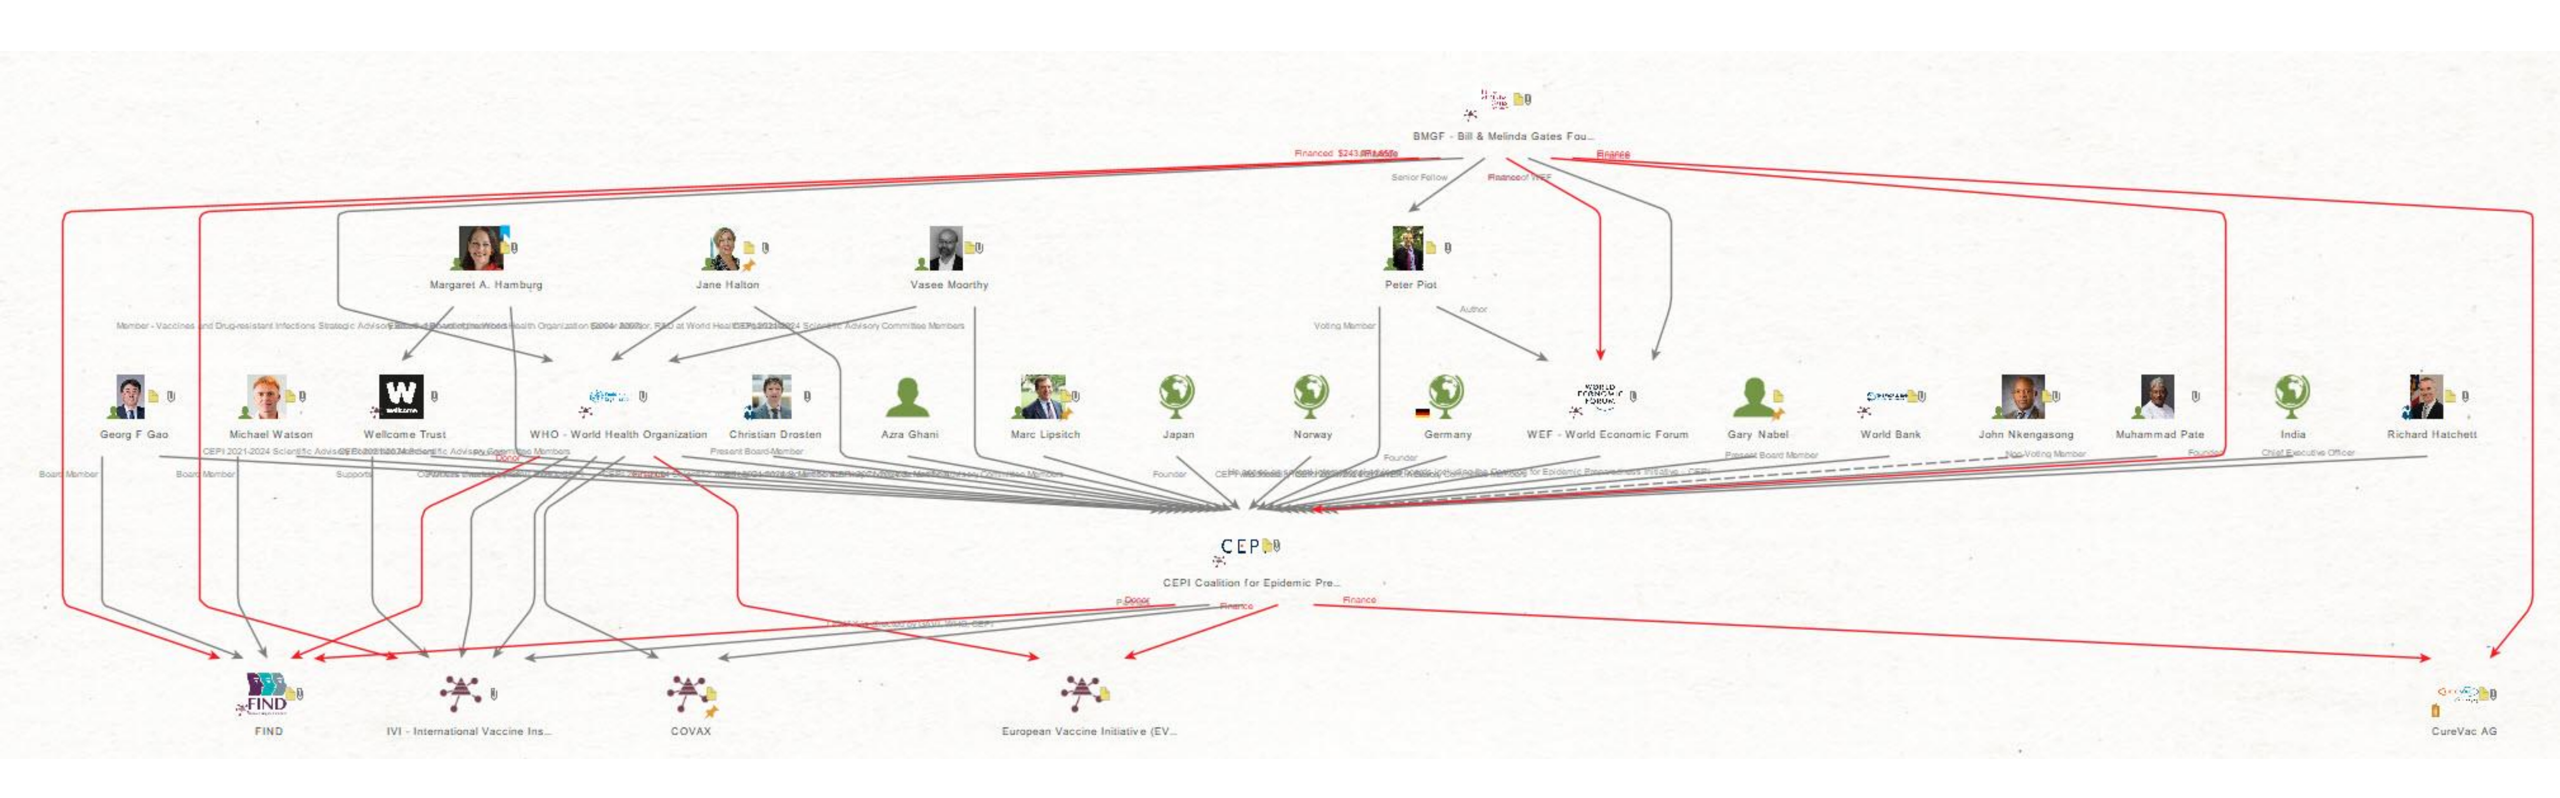

CEPI - Coalition for Epidemic Preparedness Innovations

FIND

“FIND, the global alliance for diagnostics, seeks to ensure equitable access to reliable diagnosis around the world.
We connect countries and communities, funders, decisionmakers, healthcare providers and developers to spur diagnostic innovation and make testing an integral part of sustainable, resilient health systems.
We are working to save 1 million lives through accessible, quality diagnosis, and save US$1 billion in healthcare costs to patients and health systems. We are co-convener of the Access to COVID-19 Tools (ACT) Accelerator diagnostics pillar, and a WHO Collaborating Centre for Laboratory Strengthening and Diagnostic”

COVAX / ACT-A

With a fast-moving pandemic, no one is safe, unless everyone is safe

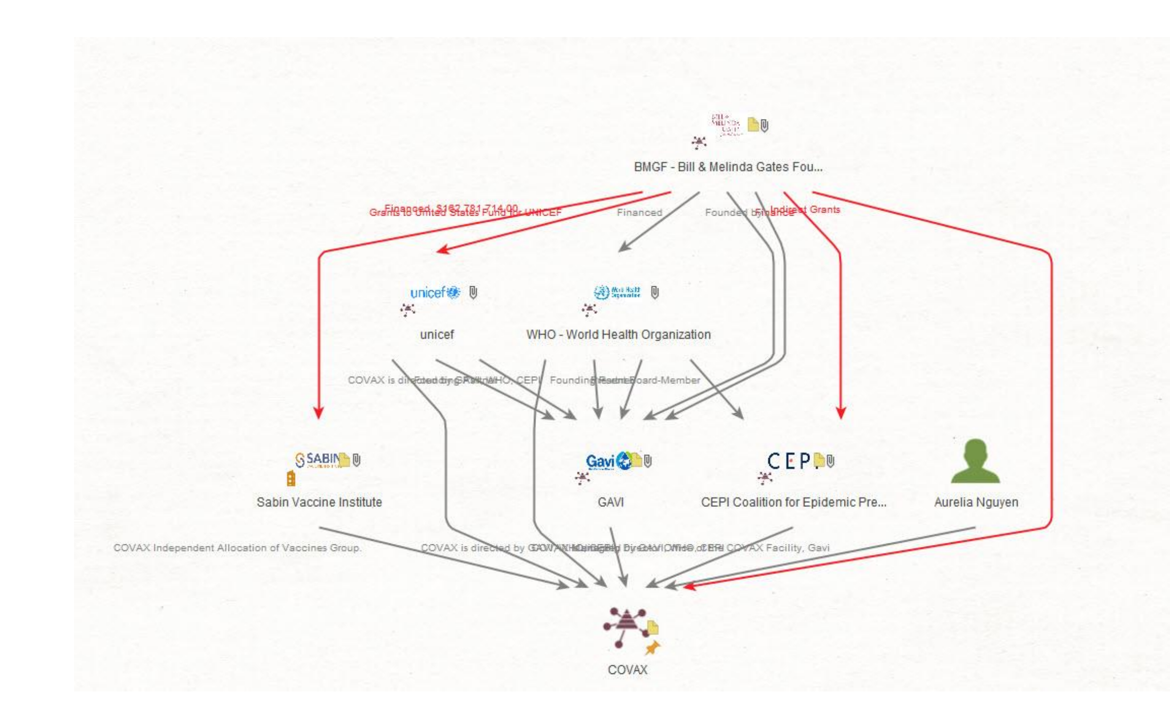

COVAX is co-led by CEPI, Gavi and WHO, alongside key delivery partner UNICEF. In the Americas, the PAHO Revolving Fund is the recognized procurement agent for COVAX.

https://www.who.int/initiatives/act-accelerator/covax
https://www.gavi.org/vaccineswork/covax-explained
https://en.wikipedia.org/wiki/COVAX

2,2 Milliarden Euro für Impfungen, Diagnostik und Medikamente

Die Pandemie kann nur besiegt werden, wenn sie weltweit unter Kontrolle gebracht wird: Deutschland hat sich deshalb schon früh für eine gemeinsame und solidarische Antwort auf die Pandemie stark gemacht. Nach dem Grundsatz „Niemand ist sicher, bis alle sicher sind“ hat Deutschland im vergangenen Jahr den Koordinierungsmechanismus Access to Covid-19 Tools Accelerator (ACT-A) mitgegründet. Als derzeit zweitgrößter Geber von ACT-A hat Deutschland bislang 2,2 Milliarden Euro zur Verfügung gestellt. Der Großteil der Unterstützung geht an die internationale Impfstoffplattform COVAX, ein Teil wird auch für Diagnostik und Medikamente gegen die Krankheit verwendet. Bis Anfang August wurden dadurch bereits 138 Staaten mit insgesamt über 200 Millionen Dosen der Impfstoffe von AstraZeneca, Johnson & Johnson, Moderna und BioNTech versorgt.

The Global Fund

„Der **Globale Fonds zur Bekämpfung von AIDS, Tuberkulose und Malaria** (englisch **The Global Fund to Fight AIDS, Tuberculosis and Malaria,** kurz GFATM) mit Sitz in Genf, Schweiz, ist ein Finanzierungsinstrument zur Bekämpfung der drei großen Infektionskrankheiten AIDS, Tuberkulose und Malaria. Der weltweit in mehr als 100 Ländern tätige Fonds ist eines der wichtigsten Instrumente zur Bekämpfung dieser Krankheiten.“

„Der Fonds wurde im Jahr 2002 gegründet, nachdem sich die G8-Staaten auf ihrem Treffen in Genua 2001 darauf verständigt hatten, die Finanzierung des weltweiten Kampfes gegen die drei schweren Infektionskrankheiten AIDS, Tuberkulose und Malaria zu verstärken. Schon ein Jahr zuvor forderte der ehemalige UN-Generalsekretär Kofi Annan die Einrichtung eines solchen Fonds[2].
Der Fonds dient der Finanzierung nationaler Maßnahmen gegen die drei Krankheiten einschließlich der Stärkung von Gesundheitssystemen. Er fördert zudem die Eigenverantwortung der Regierungen, die Mitwirkung der Zivilgesellschaft und des privaten Sektors sowie wirkungs- und genderorientierte Maßnahmen gegen Aids, Tuberkulose und Malaria.
Der ehemalige Leiter des US-AIDS-Programms PEPFAR (President's Emergency Plan for AIDS Relief), Mark Dybul, wurde im Jahre 2012 zum Leiter des Globalen Fonds gewählt. Er hatte dieses Amt bis Mai 2017 inne. Mark Dybul gilt in Fachkreisen als Visionär im Bereich globaler Gesundheit und hatte maßgeblich an der Gründung und Durchführung des Notfallplans des US-Präsidenten für AIDS-Bekämpfung (PEPFAR) beigetragen. Als Arzt mit dem Schwerpunkt Immunologie wurde er als Mediziner, Wissenschaftler und strategisch denkender Verwalter zum ausgewiesenen HIV- und AIDS-Experten. Nach dem Abschied von Mark Dybul leitete Marijke Wijnroks vorübergehend die Organisation. Seit März 2018 ist Peter Sands Direktor des GFATM.“

„Deutschland und der Globale Fonds
Als viertgrößter Geber (nach den USA, Frankreich und Großbritannien) leistet Deutschland einen bedeutenden Beitrag zur weltweiten Bekämpfung von AIDS, Tuberkulose und Malaria.[13]
Zudem spielt das Land als Mitglied des Verwaltungsrats eine entscheidende Rolle dabei, den globalen Fonds bei der Umstrukturierung und Straffung von dessen Betriebsabläufen zu unterstützen, damit die Investitionen der Organisation durchdacht getätigt werden und auf maximale Wirkung ausgerichtet sind.
Außerdem hat der Fonds ein neues Finanzierungsmodell eingeführt. Durch das neue Finanzierungsmodell wird eine stärkere Verantwortung der Länder für Projekte gefördert. Zudem wirkt das neue Finanzierungsmodell als Anreiz für politischen Dialog mit den Programmdurchführungsländern und zielt gleichzeitig auf die Berücksichtigung von Themen der Gleichberechtigung von Männern und Frauen sowie der sexuellen und reproduktiven Gesundheit und von Menschenrechtsbelangen ab. Der Landesdialog als Schlüsselelement des neuen Finanzierungsmodells bietet außerdem neue Chancen für das Engagement aller Partner, auch aus der Zivilgesellschaft und der freien Wirtschaft.
Neben diesen Beiträgen ist Deutschland auch einer der führenden Schirmherren des Programms Debt2Health des Globalen Fonds, das weltweit zu einem erheblichen Anstieg der Förderung von Programmen des Globalen Fonds geführt hat. Im Rahmen dieser Initiative hat Deutschland in Ländern wie Côte d’Ivoire, Indonesien, Pakistan und Ägypten einen Schuldenschnitt vorgenommen.“

Press release

MHRA and the Bill & Melinda Gates Foundation to look at the safer, effective use of medicines during pregnancy

MHRA and the Bill & Melinda Gates Foundation have begun new research on medicine use which could impact the health of pregnant women around the world.

From: Medicines and Healthcare products Regulatory Agency
Published 17 September 2019

Brexit

Check what you need to do

In advance of World Patient Safety Day (17 September), MHRA specialists, as part of a broader programme of work, have begun developing ground-breaking research to support the safer use of medicine during pregnancy.

A $360,000 grant over two years from the Bill & Melinda Gates Foundation (approximately £292,000), will support the MHRA's research, to help predict the need for adjusting a medicine's dose during different trimesters of pregnancy. This will ensure effective use, which is vitally important for the health of mother and baby.

Worldwide, data in this area remain limited, and new insights could potentially impact the health of pregnant women around the world. This would also give obstetricians further clarity on the optimal dose of a

CONTEXT | STRATEGY | RESULTS | PARTNERS

The World Bank Group works globally with standard-setting bodies to develop guidelines, standards and good practices. We also work with the G20 to develop guidance for regulators and policymakers and to catalyze new actions in support of financial inclusion. We are also an implementing partner for the G20 Global Partnership for Financial Inclusion (GPFI).

We also work closely with a number organizations and donor partners to advance financial inclusion, including Alliance for Financial Inclusion (AFI), AusAid, the Bill and Melinda Gates Foundation, DFID, Financial Sector Development Trusts, GIZ, the Ministry of Foreign Affairs of the Netherlands, the OECD, SECO, UNCDF, UNCITRAL, UNSGSA, USAID, and regional development banks.

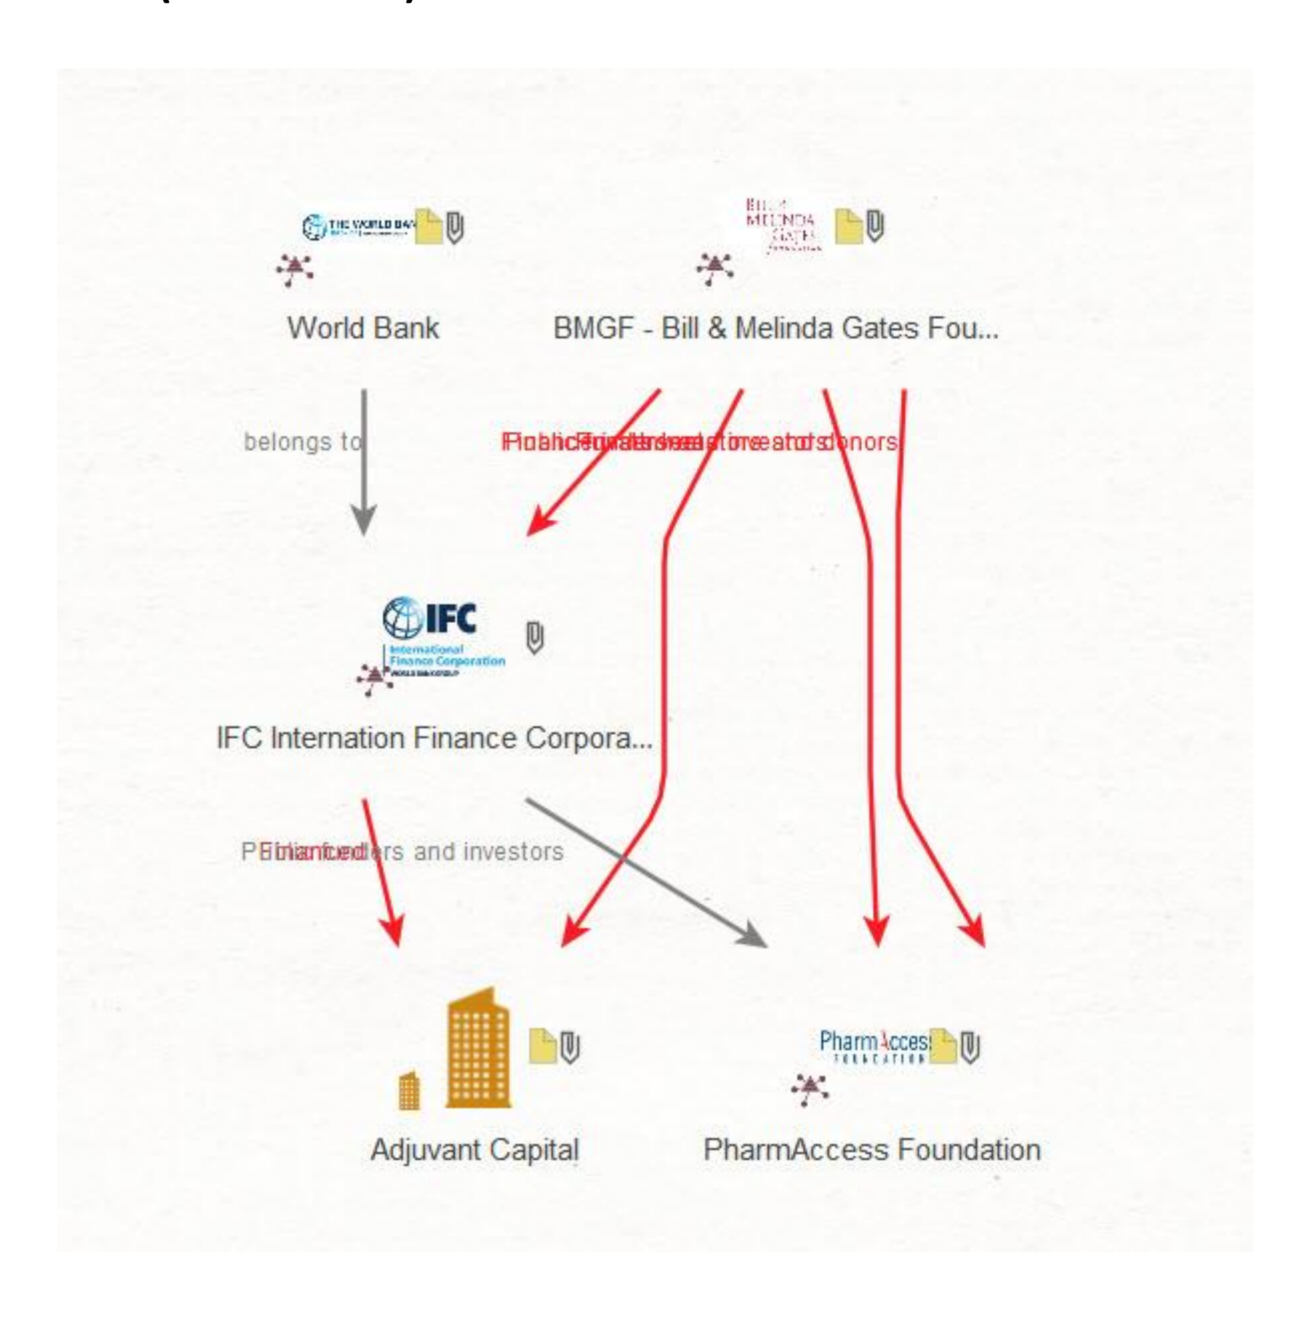

The Ministry of Foreign Affairs of the Netherlands and the Bill and Melinda Gates Foundation provide the funding for the Financial Inclusion Support Framework (FISF), while SECO provides funding for the Consumer Protection and Financial Literacy (CPFL) program, and DFID provides funding for the Harnessing Innovation for Financial Inclusion (HiFi) program.

Four new members complete the International Advisory Board on Global Health

https://www.bundesgesundheitsministerium.de/english-version/press/2018/international-advisory-board.html

Meeting in July with some members of the IAB and two Secretary of States (from left to right: Farrar, Roses, Hacker, Kickbusch, Secretary of State Stroppe, Nishtar, Elias, Schneider, Secretary of State Flachsbarth, Benn)

The Advisory Board consists of ten German and international experts. Six members of the International Advisory Board on Global Health have already been appointed by the Federal Ministry of Health in August 2017. Another four were appointed as members in May 2018. The Board now includes experts from different regions and stakeholder groups that have extensive expertise on various global health topics.

Members of the International Advisory Board on Global Health

- Prof Dr Ilona Kickbusch, Director of the Global Health Centre at the Graduate Institute of International and Development Studies, Geneva (Chair of the board)
- Prof Dr Christian Drosten, Chair of the Institute of Virology at the Charité Berlin
- Dr Christopher Elias, President of the Global Development Program, Bill & Melinda Gates Foundation
- Dr Jeremy Farrar, Director of the Wellcome Trust
- Prof Dr Jörg Hacker, President of the German National Academy of Sciences Leopoldina
- Dr Matshidiso Rebecca Moeti, WHO Regional Director for Afrika
- Dr Mirta Roses Periago, former Director of the Pan American Health Organization
- Dr Sania Nishtar, President of Heartfile
- Dr Gisela Schneider, Director of the German Institute for Medical Mission

Global Health Hub Germany

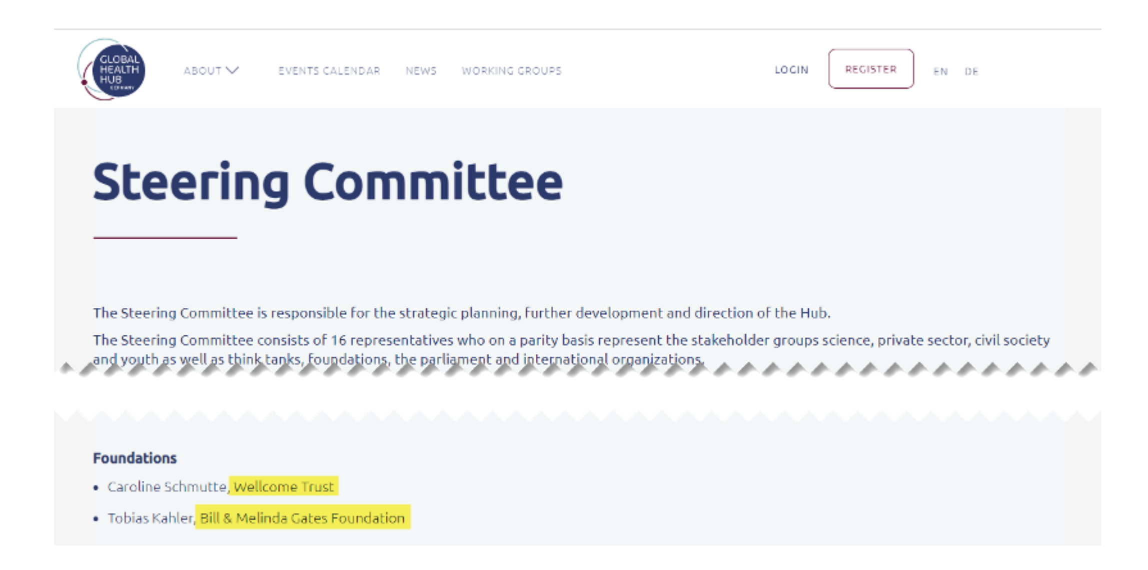

The Global Health Hub Germany is a network that aims to bring together all actors interested in Global Health. The Hub wants to promote exchange, initiate new partnerships, support cooperation and innovative approaches - across sectors and stakeholder groups.
Membership is open to both individuals and organizations from all areas and sectors involved in Global Health - stakeholders from science, the private sector, civil society and politics, as well as from the health, environment, climate, food, agriculture, education and research sectors.

The Hub was inaugurated by Minister of Health Jens Spahn in February 2019 with a kick-off event at the Federal Ministry of Health. The Ministry of Health is providing funding for three years (2019-2021) for the set-up of the Hub and the establishment of the office.
Since the kick-off, the number of members has increased continuously: more than 1150 individuals and organizations have by now registered to make new contacts, exchange views on current issues and work together.

To promote cooperation and exchange, the Hub offers various possibilities and formats:

- Members can collaborate in cross-sectoral and cross-actor working groups on issues of their choice. Approximately 20 working groups have already been established on topics such as "Universal health coverage through digital technology", "Climate and Health" or "Global Mental Health". In the "Virtual Working Space", in the members only area of the website, interested members can join the already existing working groups to collaborate and discuss. Your topic is not included yet? No problem, you can suggest a new working group and search for fellow members who are interested in working on the same topic.
- With different types of events the Hub promotes regular exchange between members. In addition to face-to-face events, such as the annual Global Health Talk, webinars are held regularly to discuss current topics or present the work of the members.
- All registered members can be found in the member database in the members only area of the website. There you can search for experts on specific topics or from specific stakeholder groups. You can send networking requests, exchange views and discuss via the website by using the chat feature.
- In an interactive forum all members can informally exchange information, ask questions or give advice.

CORONAVIRUS-LIVETICKER CORONAVIRUS: ALLE KARTEN UND ZAHLEN

Veröffentlicht am 13.05.2020 | Lesedauer: 4 Minuten

Von **Cornelia Karin Hendrich**
Redakteurin

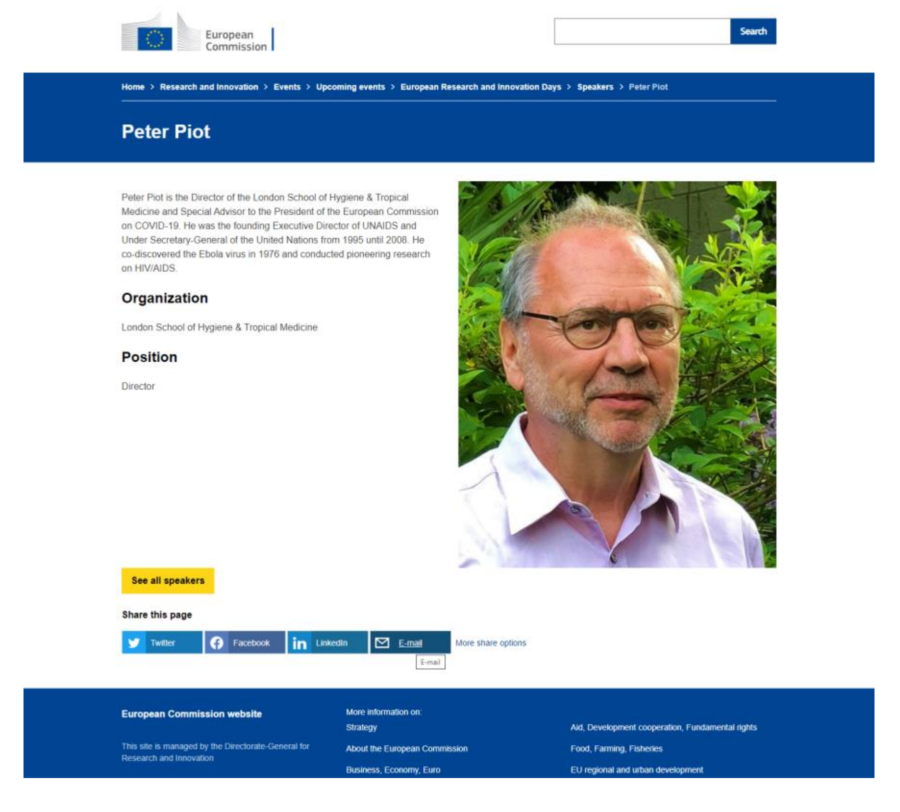

Peter Piot warnt: Das Coronavirus sei eine "lebensverändernde Erfahrung"

Quelle: FABRICE COFFRINI/AFP via Getty Images

Einen Hauch des Todes habe er bei seiner Begegnung mit Covid-19 gespürt, sagt Peter Piot. Der Arzt und Wissenschaftler berät Ursula von der Leyen, zuletzt war er selbst an Corona erkrankt. Ohne Impfstoff werde es kein normales Leben mehr geben.

Der Wissenschaftler und Arzt Peter Piot, Mitentdecker des Ebola-Virus, hat nach seiner eigenen Erkrankung mit Covid-19 vor Langzeitfolgen des neuartigen Coronavirus für viele Menschen gewarnt. Der vielfach ausgezeichnete Forscher, der auch Sonderberater der Präsidentin der EU Kommission, Ursula von der Leyen, ist, sagte: „Es wird weltweit Hunderttausende von Menschen geben, möglicherweise mehr, die für den Rest ihres Lebens Behandlungen wie eine Dialyse benötigen."

SEATTLE -- The Bill & Melinda Gates Foundation announced today that Peter Piot, M.D., Ph.D., has joined the foundation's Global Health Program as a senior fellow until April 30. A distinguished academic and accomplished leader in the global effort to fight HIV/AIDS, Piot served from 1995 to 2008 as the founding executive director of the Joint United Nations Program on HIV/AIDS (UNAIDS).

"Peter is a rigorous scientist and a passionate advocate for global health," said Dr. Tachi Yamada, president of the foundation's Global Health Program. "The foundation and our partners will benefit greatly from his deep experience and his insight into the health challenges facing developing countries."

As a senior fellow, Piot will advise the foundation on its global health strategy, including its support for efforts to fight HIV/AIDS and other infectious diseases.

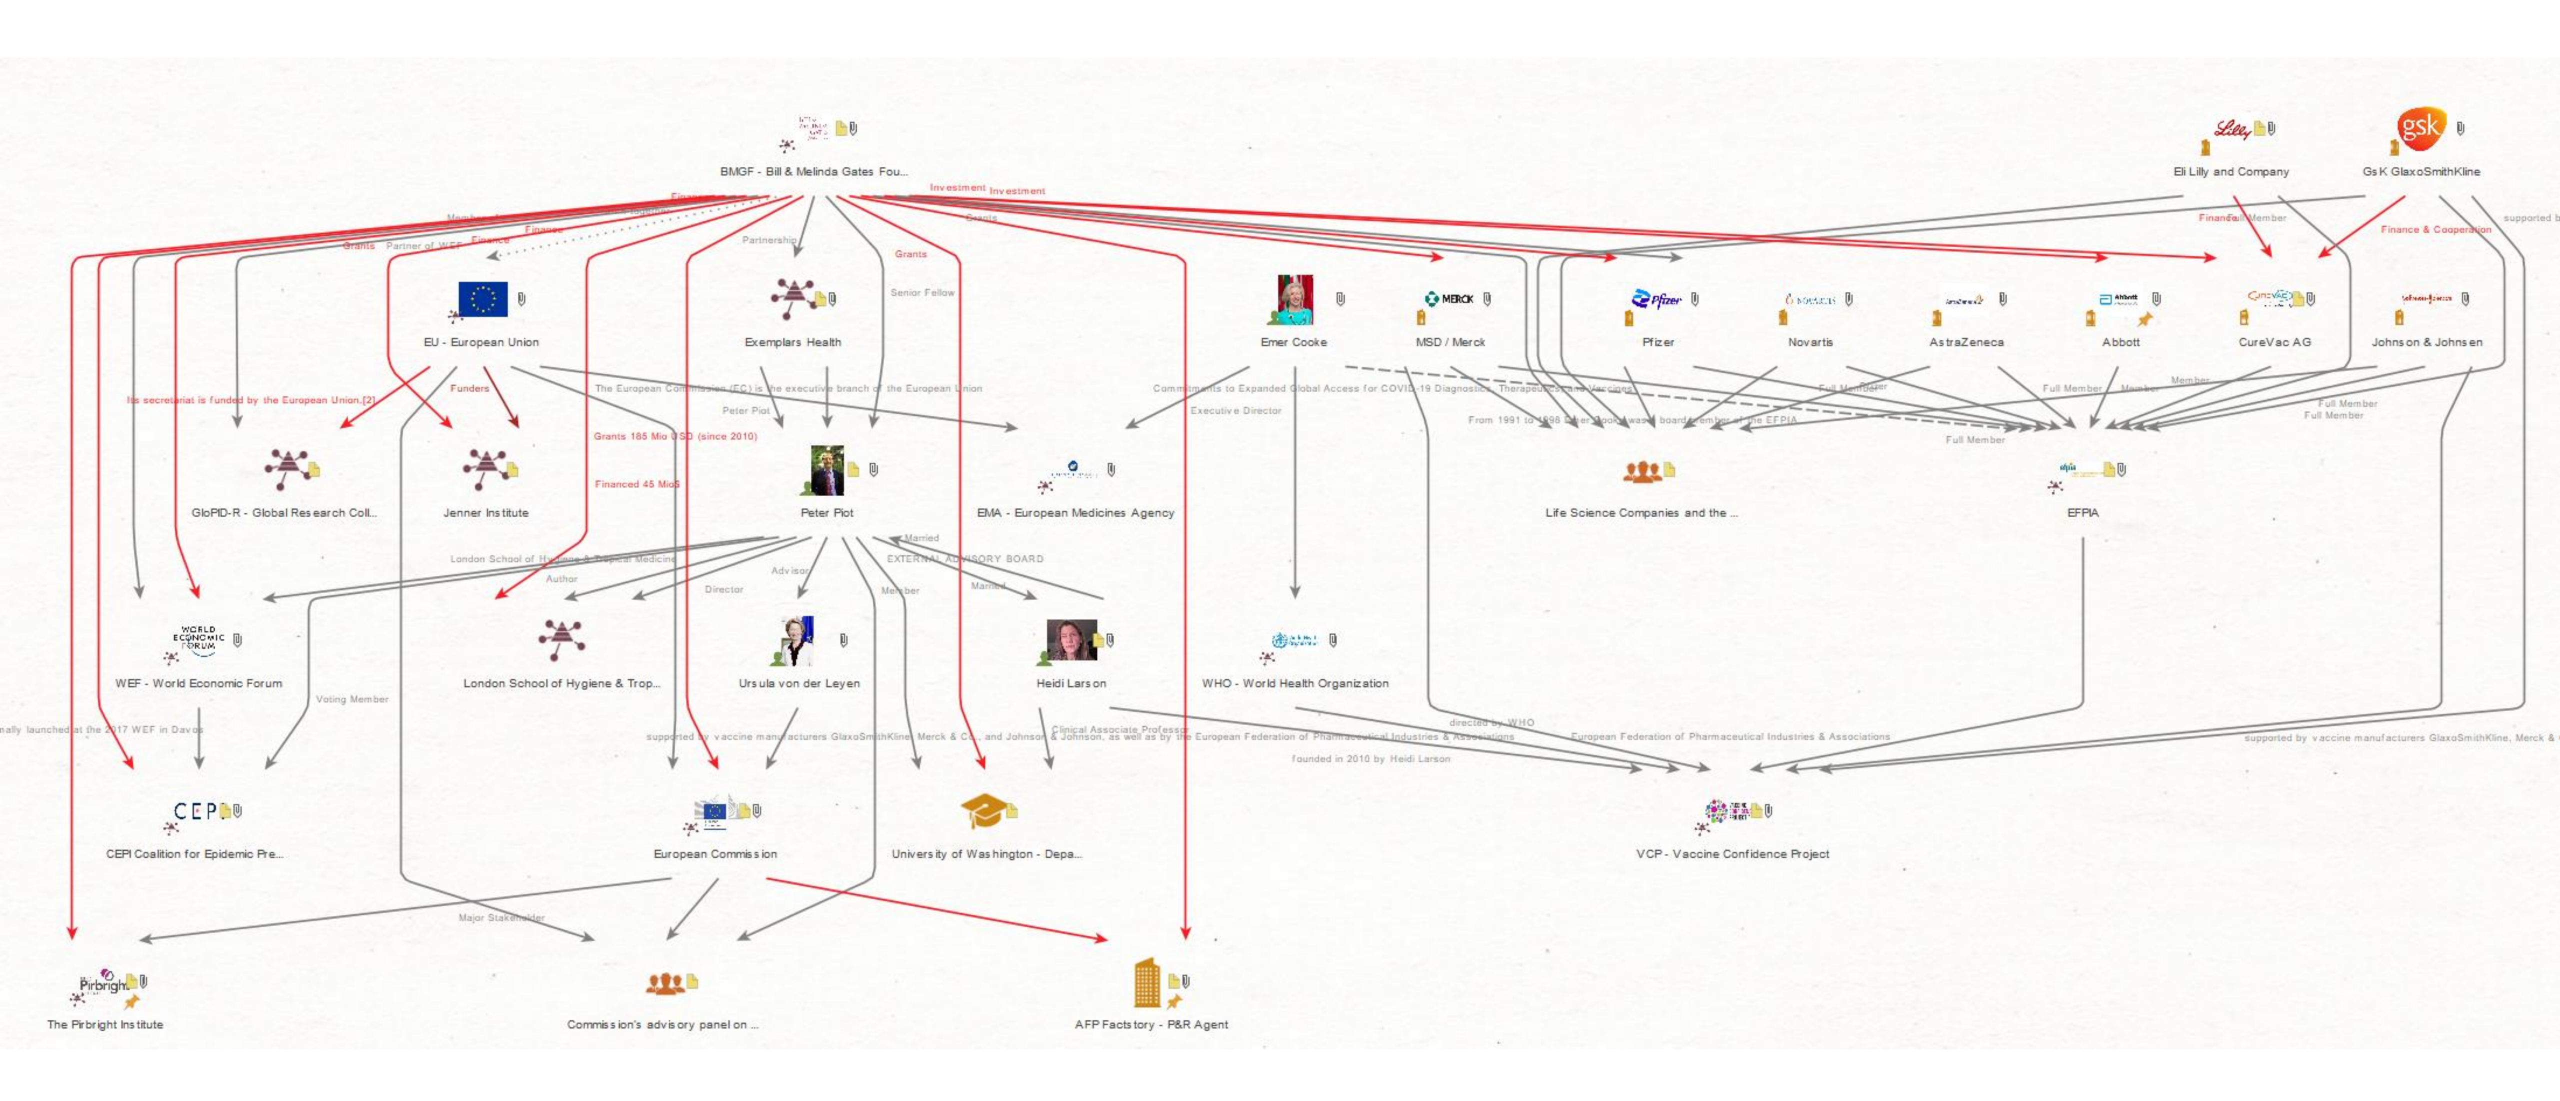

"I am encouraged by the growing enthusiasm and support for improving health in the developing world," said Dr. Piot. "The Gates Foundation has played a central role in making this progress possible, and I look forward to working closely with my colleagues at the foundation to build on this momentum."

While at UNAIDS, Piot built a broad international coalition against the global HIV/AIDS epidemic, including both governments and civil society groups. He successfully advocated for increased funding for and attention to the epidemic. Global investments to fight HIV/AIDS grew from $250 million in 1996 to $10 billion in 2007.

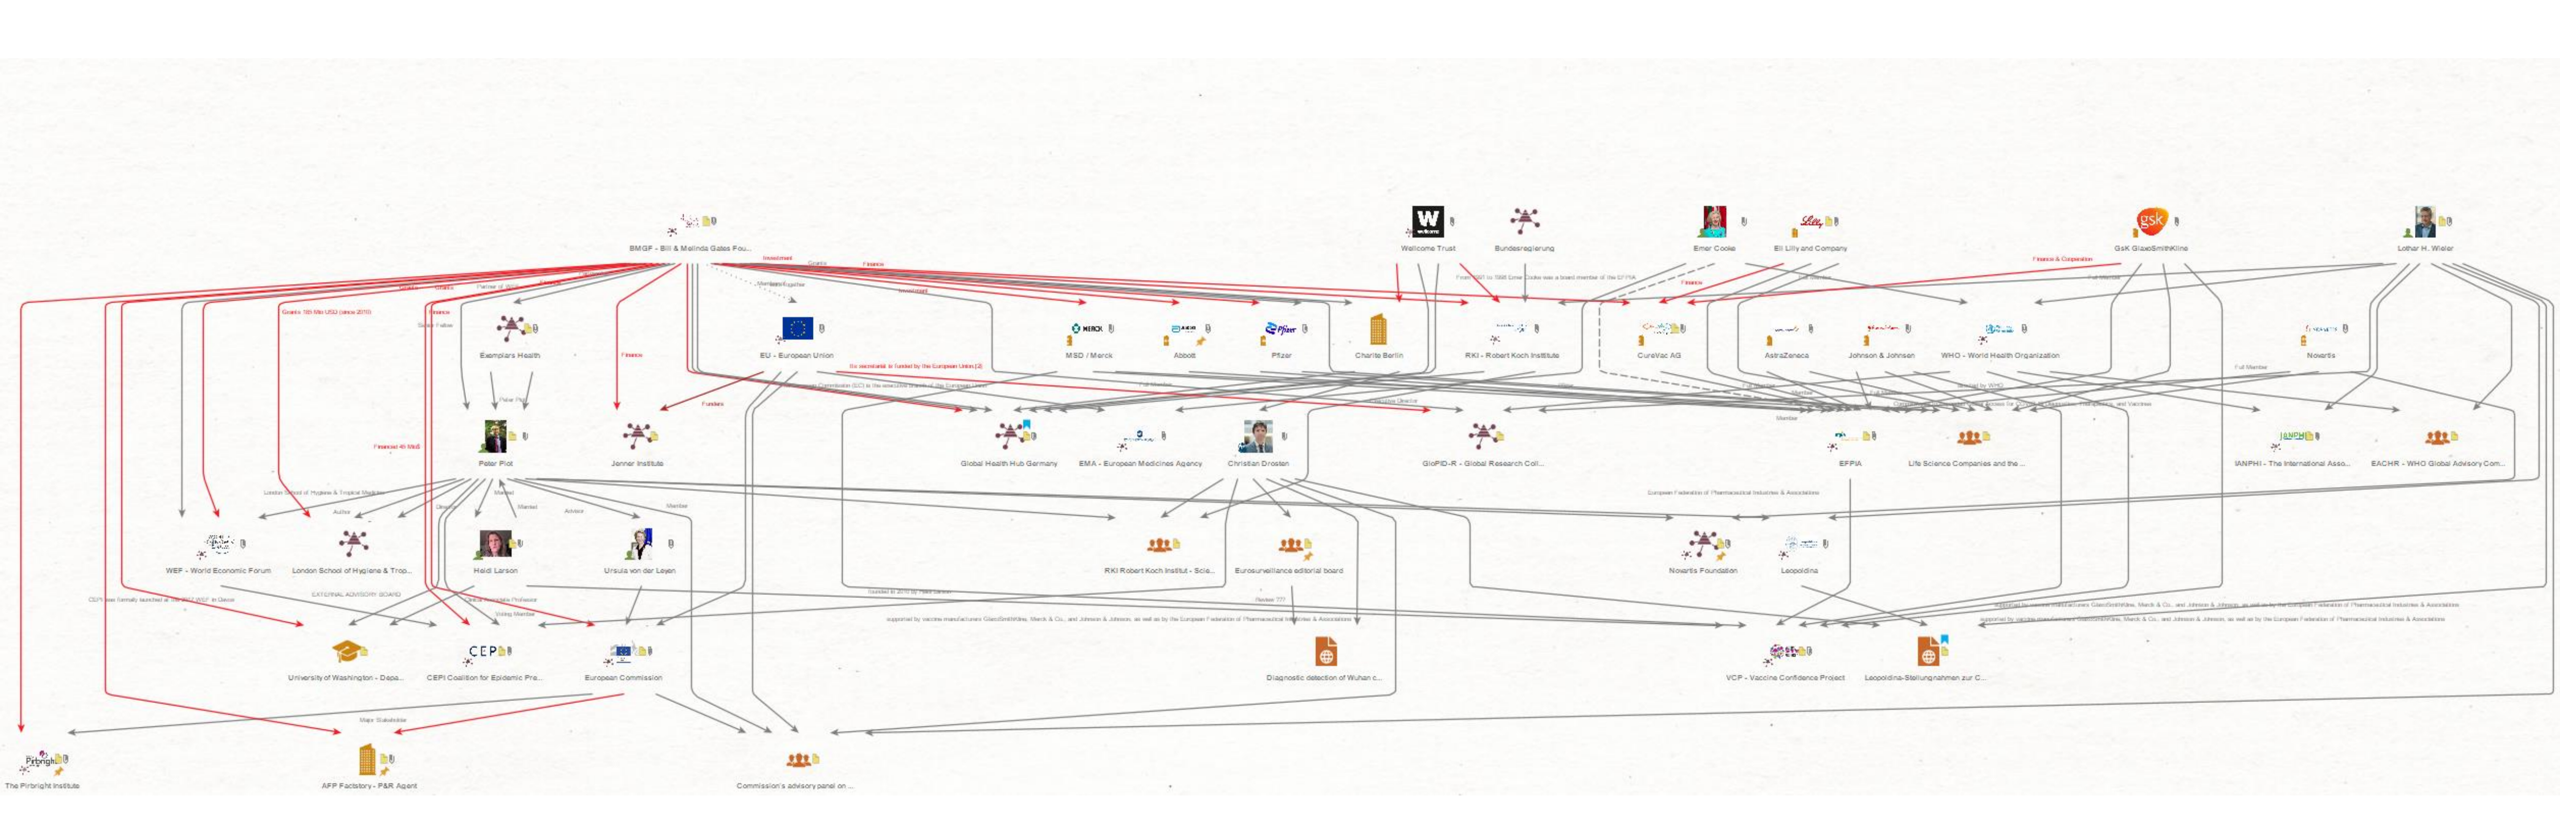

Piot holds a medical degree from the University of Ghent in Belgium. In 1976, while in Zaire pursuing his Ph.D. in microbiology, he co-discovered the Ebola virus. Piot has held several academic positions and pioneered a series of collaborative programs in sub-Saharan Africa, including Project SIDA in Kinshasa, Zaire, the first international program on HIV in Africa.

Hans-Ulrich Holtherm: Neu im Bundesgesundheitsministerium

Dtsch Arztebl 2020; 117(11): A-557 / B-481

Beerheide, Rebecca

Artikel | Briefe & Kommentare | Statistik

Seit dem 1. März leitet Generalarzt Dr. med. Hans-Ulrich Holtherm (55) die im Bundesgesundheitsministerium (BMG) neu geschaffene Abteilung 6 „Gesundheitsschutz, Gesundheitssicherheit, Nachhaltigkeit". In der Abteilung gibt es zwei Unterabteilungen mit jeweils fünf Fachreferaten, dazu zählen Referate zum nationalen und internationalen Krisenmanagement.

„Dr. Hans-Ulrich Holtherm verbindet durch seine langjährigen Erfahrungen die Themen Gesundheit und Sicherheit im gesamtgesellschaftlichen Ansatz und ist daher Sinnbild für die neue Abteilung 6", heißt es zur Personalie aus dem Ministerium. Der Kommandeur und Ärztliche Direktor des Bundeswehrkrankenhauses Ulm, bei dem er seinen Dienst erst im Januar 2020 antrat, sei Experte in Fragen des öffentlichen Gesundheitsdienstes im Inland sowie durch Erfahrungen mit der Bundeswehr im Ausland auch „sachkundig in der Krisenreaktion und -prävention", so das BMG. Die Gründung dieser neuen Abteilung wurde schon 2019 beschlossen.

Hans-Ulrich Holtherm, Foto: Bundeswehr

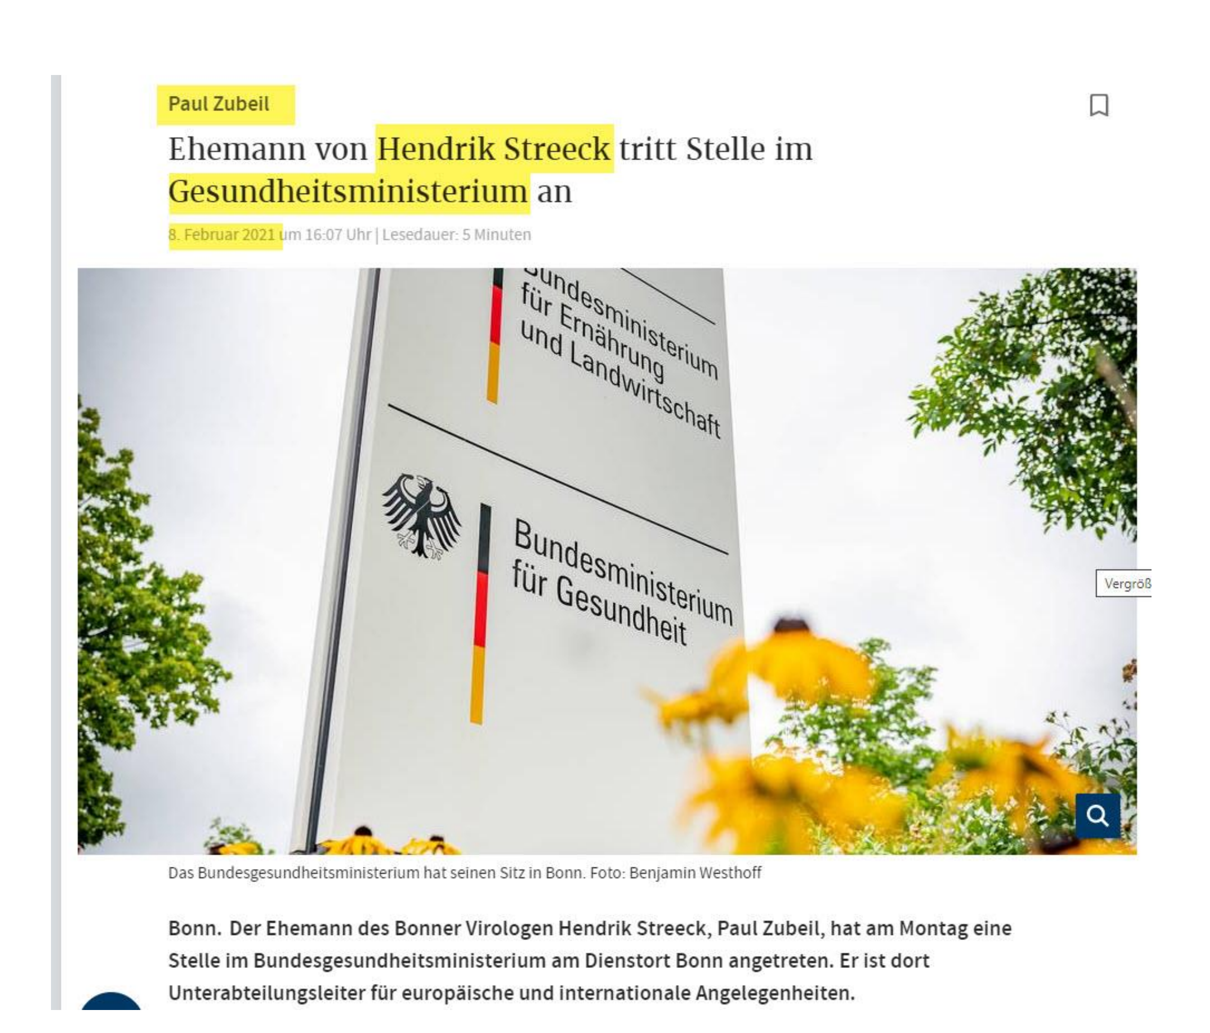

Anzeige

Holtherm war bei Auslandseinsätzen im Irak, Afghanistan, im Kongo, in Dschibuti und im Kosovo. Der Generalarzt war bereits 2009 im Zuge der H1N1-Pandemie von der Bundeswehr abgeordnet in das BMG und gehörte auch 2014 dem ressortübergreifenden Ebola-Krisenstab an. 1964 in Rheine geboren, trat er 1983 in die Bundeswehr ein und studierte als Sanitätsoffiziersanwärter in Münster Humanmedizin. Er ist Allgemeinmediziner, Facharzt für Öffentliches Gesundheitswesen mit Zusatzqualifikationen in Tropen-, Flug- und Betriebsmedizin. *Rebecca Beerheide*

Auszug BioNTech – Geschäftsbericht 2019

Unsere Kollaborationen in den Bereichen Infektionskrankheiten und seltene Erkrankungen

Genevant
- Seit 2018 Co-Entwicklungs- und -Kommerzialisierungspartner für fünf mRNA-Proteinersatztherapien bei seltenen Erkrankungen; 50:50 globale Kosten- und Gewinnaufteilung
- Fünf exklusive Onkologie-LNP-Lizenzen für BioNTech. Genevant ist berechtigt, bedeutende kommerzielle Meilensteine für die Onkologie-Lizenzen zu erhalten

Pfizer
- Seit 2018 bestehende Lizenzierungsvereinbarung zur gemeinsamen Entwicklung eines prophylaktischen Grippeimpfstoffs auf mRNA-Basis (BNT161)
- Vorabzahlung, Kapitalinvestition und erste Meilensteinzahlungen in Höhe von 120 Mio. $
- Bis zu 325 Mio. $ an möglichen weiteren Meilensteinzahlungen
- Lizenzgebühren auf weltweiten Absatz auf weltweiten Nettoumsatz im Falle einer Marktzulassung

University of Pennsylvania (UPenn)
- Seit 2018 strategische Forschungs- und Entwicklungskooperation mit der exklusiven Option, mRNA-Immuntherapien zur Behandlung von bis zu zehn Indikationen von Infektionskrankheiten zu entwickeln und zu vermarkten
- Unterstützung der Forschungsaktivitäten seitens BioNTech mit 20 Mio. $
- UPenn führt die präklinischen Studien durch
- BioNTech behält die Option, die mRNA-Impfstoffkandidaten für die klinische Entwicklung zu lizensieren

Bill & Melinda Gates Foundation
- Seit 2019 Forschungs- und Entwicklungsvereinbarung im Bereich HIV und Tuberkulose (TB) sowie bis zu drei weiteren Infektionskrankheiten
- 55 Mio. $ als Equity-Investition in die Entwicklung weiterer Strategien zur Prävention und/oder Behandlung von HIV und TB
- Zuschüsse in Höhe von bis zu 45 Mio. $ zur Finanzierung zusätzlicher Aktivitäten in bis zu drei weiteren Projekten im Bereich Infektionskrankheiten innerhalb der ersten fünf Jahre der Zusammenarbeit

53

Epitop, welches in Bauchspeicheldrüsenkrebs und anderen gastrointestinalen Krebsarten exprimiert wird und dort eine Rolle bei der Tumoradhäsion und Metastasenbildung spielt.

Im Juni 2019 gab BioNTech den Start der klinischen Entwicklung von Produktkandidat DuoBody®-PD-L1x4-1BB bekannt. PD-L1x4-1BB ist ein bi-spezifischer Antikörper, der gemeinsam mit Genmab A/S entwickelt wird. Im Rahmen der Phase-1/2a-Studie wird der bi-spezifische Antikörper in Patienten mit metastasierenden oder chirurgisch nicht entfernbaren soliden Tumoren getestet, die nicht mit der Standardtherapie behandelt werden können. Der DuoBody®-PD-L1x4-1BB ist der erste gemeinsam entwickelte Produktkandidat, der die klinische Phase erreicht. Die Kosten und Gewinne, die im Zuge der Partnerschaft anfallen, werden im Verhältnis 50 zu 50 geteilt. Ziel der 2015 unterzeichneten und 2016 um weitere Zielstrukturen und Technologien erweiterten Zusammenarbeit ist die Entwicklung und Vermarktung mehrerer neuartiger bi-spezifischer Antikörper mit überlegener in-vivo-Wirksamkeit, die das Immunsystem spezifisch gegen Krebszellen aktivieren.

Im September 2019 hat BioNTech eine Partnerschaft mit der Bill & Melinda Gates Stiftung für die Entwicklung von HIV- und Tuberkulose Impfstoffen bekanntgegeben. Im Rahmen dieser Vereinbarung hat BioNTech im September 2019 eine erste Kapitalinvestition in Höhe von 49.864 T€ (55.000 T$) erhalten. Die Finanzierung dient der Entwicklung von präklinischen Impfstoffen sowie Immuntherapiekandidaten für HIV- und Tuberkulose Infektionen, die präventiv eingesetzt werden und im Fall von HIV eine dauerhafte Remission ohne antiretrovirale Therapie ermöglichen sollen. Durch zusätzliche zukünftige Finanzierungsvereinbarungen könnten sich die Gesamtinvestitionen der Gates Stiftung auf bis zu 100.000 T$. belaufen. In diesem Fall wird dieses Kapital für die klinische Entwicklung von Produktkandidaten sowie der Initiierung neuer Projekte in diesem Indikationsbereich verwendet werden.

Finanzierung

KAPITALERHÖHUNG SERIES B

Im Juni und August 2019 hat BioNTech die Series-B-Finanzierungsrunde abgeschlossen, um seine individualisierte Krebsmedizinpipeline weiterzuentwickeln. Hierbei handelt es sich um eine der größten Einzelfinanzierungen eines privaten europäischen Biotechnologieunternehmens. In diesem Zusammenhang gab BioNTech insgesamt 12.465.288 Stammaktien (mit Ausnahme von 5.524.506 Stammaktien, die an einen in Hongkong ansässigen Investor ausgegeben und anschließend aufgrund keiner Gegenleistung wieder an BioNTech übertragen wurden; diese Aktien werden als eigene Anteile gehalten) an neue sowie bestehende Aktionäre zu einem Preis von 18,10 $ pro Aktie für einen Gesamterlös von 198.548 T€ (225.622 T$) aus. Die Kapitalerhöhung erhöhte das gezeichnete Kapital um 17.990 T€ und die Kapitalrücklage um 186.390 T€ sowie die Erfassung von eigenen Anteilen in Höhe von 5.525 T€.

BÖRSENGANG („INITIAL PUBLIC OFFERING – IPO")

Am 10. Oktober 2019 erhöhte BioNTech in Verbindung mit dem Börsengang das gezeichnete Kapital um 10.000 T€. American Depositary Shares (ADS), die Stammaktien repräsentieren, wurden an der Nasdaq Global Select Market zu einem Preis von 15,00 $ angeboten. Am 6. November 2019 erhöhte BioNTech das gezeichnete Kapital um weitere 517 T€ durch die Ausübung der im Zusammenhang mit dem

68

Die nachstehende Tabelle gibt eine Übersicht zu den Aktienoptionen, die in den Geschäftsjahren 2019 und 2018 an Vorstandsmitglieder ausgegeben wurden.

	Zeitpunkt der Ausgabe[1]	Anzahl der den Aktienoptionen zugrunde liegenden Stammaktien[4]	Ausübungspreis (€)	Ablauf der Möglichkeit zur Optionsausübung
Prof. Dr. Ugur Sahin	15.11.2018	1.830.348	10,14	17.9.2026
	10.10.2019[2]	4.374.963	13,60	11.10.2029
Sean Marett	15.11.2018	610.110	10,14	17.9.2026
Dr. Sierk Poetting	15.11.2018	610.110	10,14	17.9.2026
Dr. med. Özlem Türeci	15.11.2018[3]	1.952.334	10,14	17.9.2026

[1] Wenn nicht anders angegeben, werden alle Optionen am 16. September 2022 unverfallbar.
[2] Die Option wird jährlich in gleichen Raten nach vier Jahren, jeweils am 10. Oktober in den Jahren 2020, 2021, 2022 und 2023, unverfallbar.
[3] Die Optionen wurden am 16 März 2019 unverfallbar, gleichwohl kann die Ausübung erst ab dem 16. September 2022 erfolgen.
[4] Die Anzahl der Stammaktien bildet den Effekt der Kapitalerhöhung aufgrund eines Aktiensplits von 1:18 ab, der Am 8. September 2019 mit der Eintragung im Handelsregister wirksam wurde.

"US Emergency Plan for Global COVID-19 Relief: Urgent Action to End the Pandemic Globally and Accelerate US Recovery and Security"

https://healthpolicy.duke.edu/sites/default/files/2021-08/USEPCR%20Cover%20letter_FINAL_For%20Distribution.pdf

US Emergency Plan for Global COVID-19 Relief: Urgent Action to End the Pandemic Globally and Accelerate US Recovery and Security

We are at an exceedingly perilous and urgent moment in the COVID-19 pandemic. The Delta variant, vastly more dangerous and pernicious than the original SARS-CoV-2 virus, has rapidly spread worldwide. It has been driving a deadly summer surge in the US; ripping through Latin America; causing Indonesia to become the next Asian hotspot; and fueling a third wave of the pandemic in Africa, where less than two percent of the population has been fully vaccinated.

To respond, the US must build on the rapid development and availability of its highly effective vaccines – ensuring easy access for any American who wants to be vaccinated, and readiness to rapidly deploy boosters and vaccines for children. But as Delta has shown, an effective domestic response is not enough.

We are in a global war against a virus that doesn't respect borders and rapidly advances across continents. If the virus continues to circulate largely unchecked in many parts of the world, there is a very real prospect of new variants emerging that could totally pierce vaccine immunity, returning America and the rest of the world to square one.

The only way to prevent such a catastrophe is to dramatically decrease cases and slow transmission of the virus through widespread global vaccination, combined with other public health measures. Inequitable access to high-quality vaccines threatens to prolong the pandemic and destabilize economies and societies around the world.

To date, 82 percent of all COVID-19 vaccine doses that have gone into arms worldwide have been administered in high- and upper middle-income countries. By contrast, less than one percent have been administered in low-income countries. Meanwhile, COVAX, the multinational vaccine facility, is struggling to meet this challenge, having distributed only 153 million doses out of 4.1 billion administered worldwide.

We are facing the very real possibility that low- and lower-middle income countries will be stuck at low vaccine coverage levels through 2022 and beyond, an outcome that will be deadly. The deep divide between vaccine haves and have-nots is a challenge to our conscience and a major threat to our economic recovery and national security.

Fortunately, the supply of high-quality vaccines produced by US and allied manufacturers is projected to exceed 7 billion doses in 2021 and 14 billion doses in 2022 – more than enough to protect Americans and vaccinate the world. But doing so will require coordinated action by the US, other nations, and manufacturers to finance, allocate, and deliver doses where they are most acutely needed.

The US is on track to have over 1 billion excess doses, even assuming vaccinations and boosters for the entire population. This means we can combat the Delta-driven surge at home, while at the same time donating doses to combat it abroad. Indeed, we can – and must – do both simultaneously. This world war requires a global plan of attack.

The US and G7 allies have taken important but modest steps to close the global vaccine gap, including by accelerating large-scale production and delivery of high-quality vaccines, increasing financial support to COVAX, and committing to share roughly 900 million doses over the next year (including 580 million from the US). But these actions fall far short of the true scale and urgency required.

Much more needs to be done to provide high-quality vaccines more quickly, and to build countries' vaccine distribution and delivery capacity, which is rapidly becoming the key constraint in the race between vaccines and variants.

With the global situation becoming more dire, and current global efforts proving to be woefully insufficient, urgent US leadership is needed to get doses into arms, galvanize global action, and protect our national security. That is why **we call on President Biden to:**

- **Host a presidential-level "Global Vaccination Summit"** before the UN General Assembly meeting in September; the Summit should bring together public and private sector leaders from around the world, especially from low- and lower-middle income countries, and secure commitments to take the needed actions to close vaccine supply gaps and address financing and capacity gaps in vaccine distribution, delivery, and demand generation;
- **Rally global leaders to commit before or at the Summit to meeting the goal of vaccinating 70 percent of the world's population by mid-2022;** and
- **Launch a US Emergency Plan for Global COVID-19 Relief to help achieve that goal** and augment multilateral efforts, including the COVAX/WHO-coordinated global response and regionally-led efforts such as the Africa Vaccine Acquisition Task Team (AVATT).

The US Emergency Plan for Global COVID-19 Relief should be White House-led, spearheaded by a Global COVID-19 Emergency Response Coordinator reporting to the President and supported by a special inter-agency task force. Its main objectives should be to:

- **Strengthen global coordination of vaccine supply chains and manufacturing.** Greater transparency and accountability in the vaccine marketplace are essential. The US should press for the development of comprehensive monthly estimates of global vaccine input availability (e.g., bioreactors, lipids, filters) and vaccine supply for the coming 12-18 months, so that the US and other countries will have assurances of sufficient doses for future domestic needs, while also maximizing the amount of high-quality vaccines available for global use;

- **Increase US donations to at least 1 billion doses by mid-2022,** including 500 million in 2021, and push other high-income countries to substantially increase donations, so that the US and G7/EU allies collectively donate 1-2 billion doses by the end of 2021;

- **Accelerate globally distributed manufacturing capacity for vaccines and vaccine inputs** by providing financial and technical assistance, and facilitating private sector licensing and knowledge transfer, including for mRNA platform vaccines, to ramp up vaccine manufacturing capabilities in Africa, Latin America, and Asia; and by reaching a global agreement on reducing the use of export restrictions for COVID-19 vaccines, therapeutics, diagnostics, and related inputs; and

- **Most critically, ensure that doses are translated into vaccinations, and strengthen health systems and preparedness for future pandemics,** by accelerating a US-led effort to increase vaccine distribution and delivery capacity, and increase vaccine confidence and demand, in countries with the highest burden of disease, lowest vaccination rates, and least resources, augmenting and complementing multilateral efforts by the development banks, Access to COVID-19 Tools Accelerator and COVAX, Africa Centers for Disease Control, and others.

While these steps can and should be implemented now, they would benefit from additional Congressional support. The administration and Congress should urgently work to advance legislation to fund and sustain a comprehensive international COVID-19 response as well as health systems strengthening and pandemic preparedness efforts.

This plan should be implemented to serve as a catalyst and model for efforts by other high-income nations to use their excess vaccine supplies and technical capabilities to augment the global response. In addition, while focused on the present crisis, this plan should evolve to become part of a permanent initiative to increase preparedness for future pandemics.

This US Emergency Plan for Global COVID-19 Relief reflects both our ideals as a people and our interests as a nation. By galvanizing global efforts to vaccinate the population of the world's poorest, most afflicted countries, it will accelerate the end of the pandemic – here and everywhere.

Please read the full report, *US Emergency Plan for Global COVID-19 Relief: Urgent Action to End the Pandemic Globally and Accelerate US Recovery and Security*, to learn more.

C T Coporation has several hundred branches of various companies registered here. Interesting: There are some pharmaceutical companies registered here. C T Corporation is a part of Walter Kluwer Group.

ROADMAP ON VACCINATION
Last update: Q3 2019
European Commission
1

ROADMAP FOR THE IMPLEMENTATION OF ACTIONS BY THE EUROPEAN COMMISSION BASED ON THE COMMISSION COMMUNICATION AND THE COUNCIL RECOMMENDATION ON STRENGTHENING COOPERATION AGAINST VACCINE PREVENTABLE DISEASES

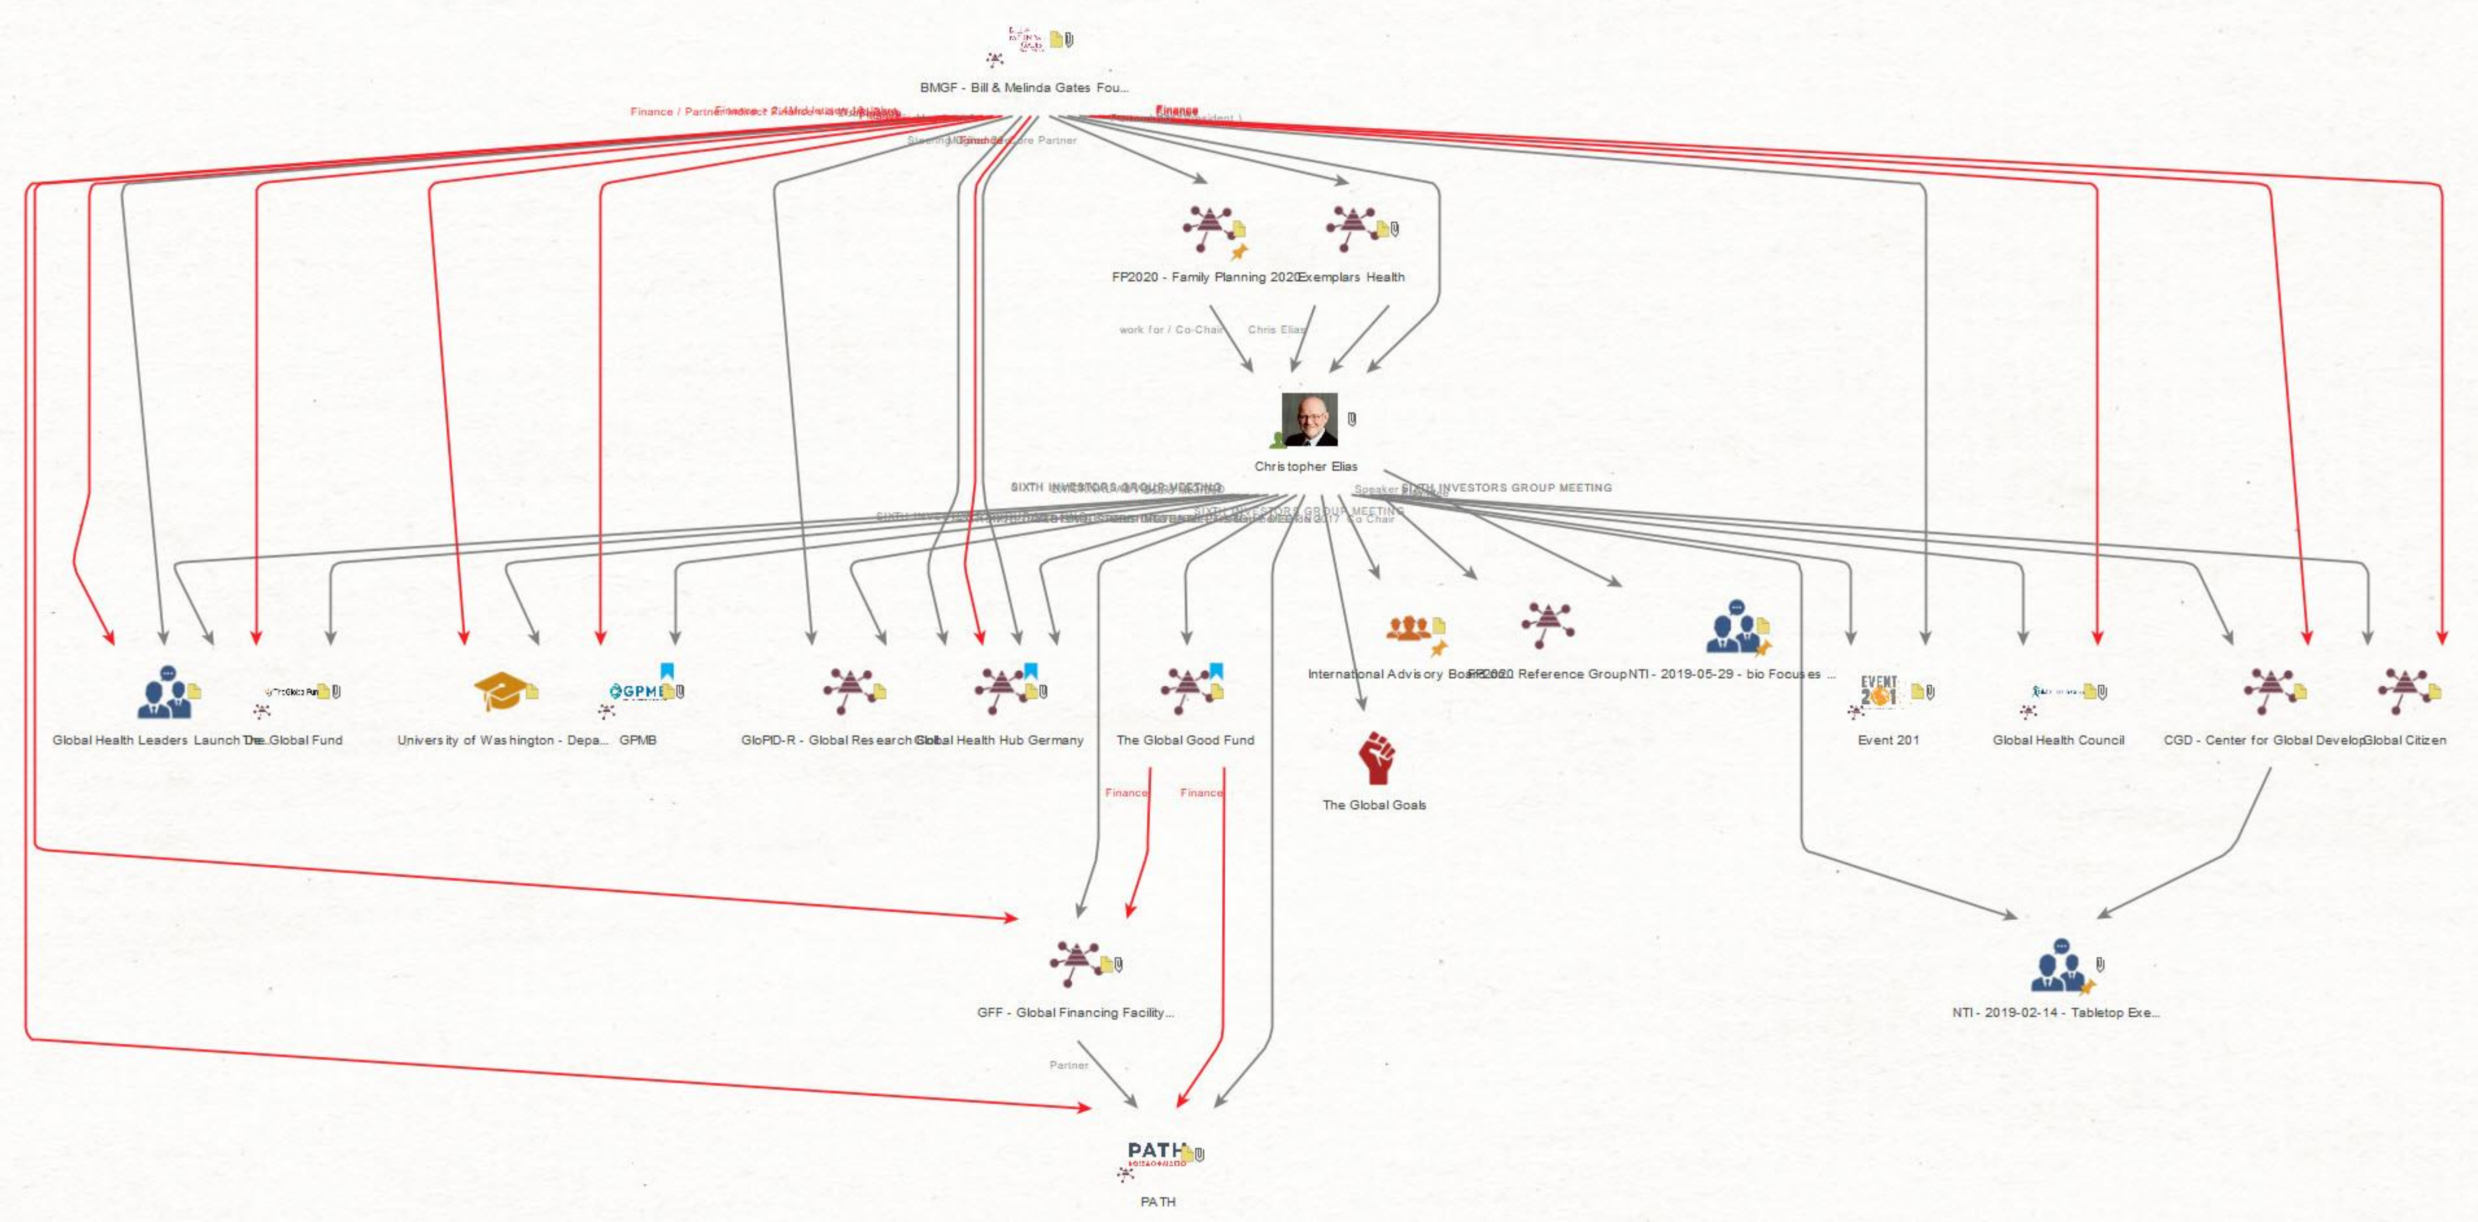

ACTIONS	TIMELINES AND DELIVERABLES				
	2018	2019	2020	2021	2022
Examine the feasibility of developing a **common vaccination card/passport for EU citizens** (that takes into account potentially different national vaccination schedules and), that is compatible with electronic immunisation information systems and recognised for use across borders, without duplicating work at national level. CR 16 and CC*		Feasibility study for the development of a common EU vaccination card (2019–2021)			Commission proposal for a common vaccination card/ passport for EU citizens
Produce on a regular basis a **Report on the State of Vaccine Confidence in the EU**, to monitor attitudes to vaccination. Based on that report and taking into account related work by WHO, present guidance that can support Member States in countering vaccine hesitancy. CR 17 and CC		State of Vaccine Confidence in the EU 2020 Follow up of the study published in October 2018 https://ec.europa.eu/health/sites/health/files/vaccination/docs/2018_vaccine_confidence_en.pdf (2019–2020)			
	Guidance on countering vaccine hesitancy tailored to specific needs identified by the Member States and/ or vaccine specific issues (2018–2021)				
		Special Eurobarometer - Europeans' attitudes towards vaccination https://ec.europa.eu/commfrontoffice/publicopinion/index.cfm/survey/getsurveydetail/instruments/special/surveyky/2223			

* Basis for action:
CR for Council Recommendation and the number of the Recommendation in the legal text. CC for Commission Communication

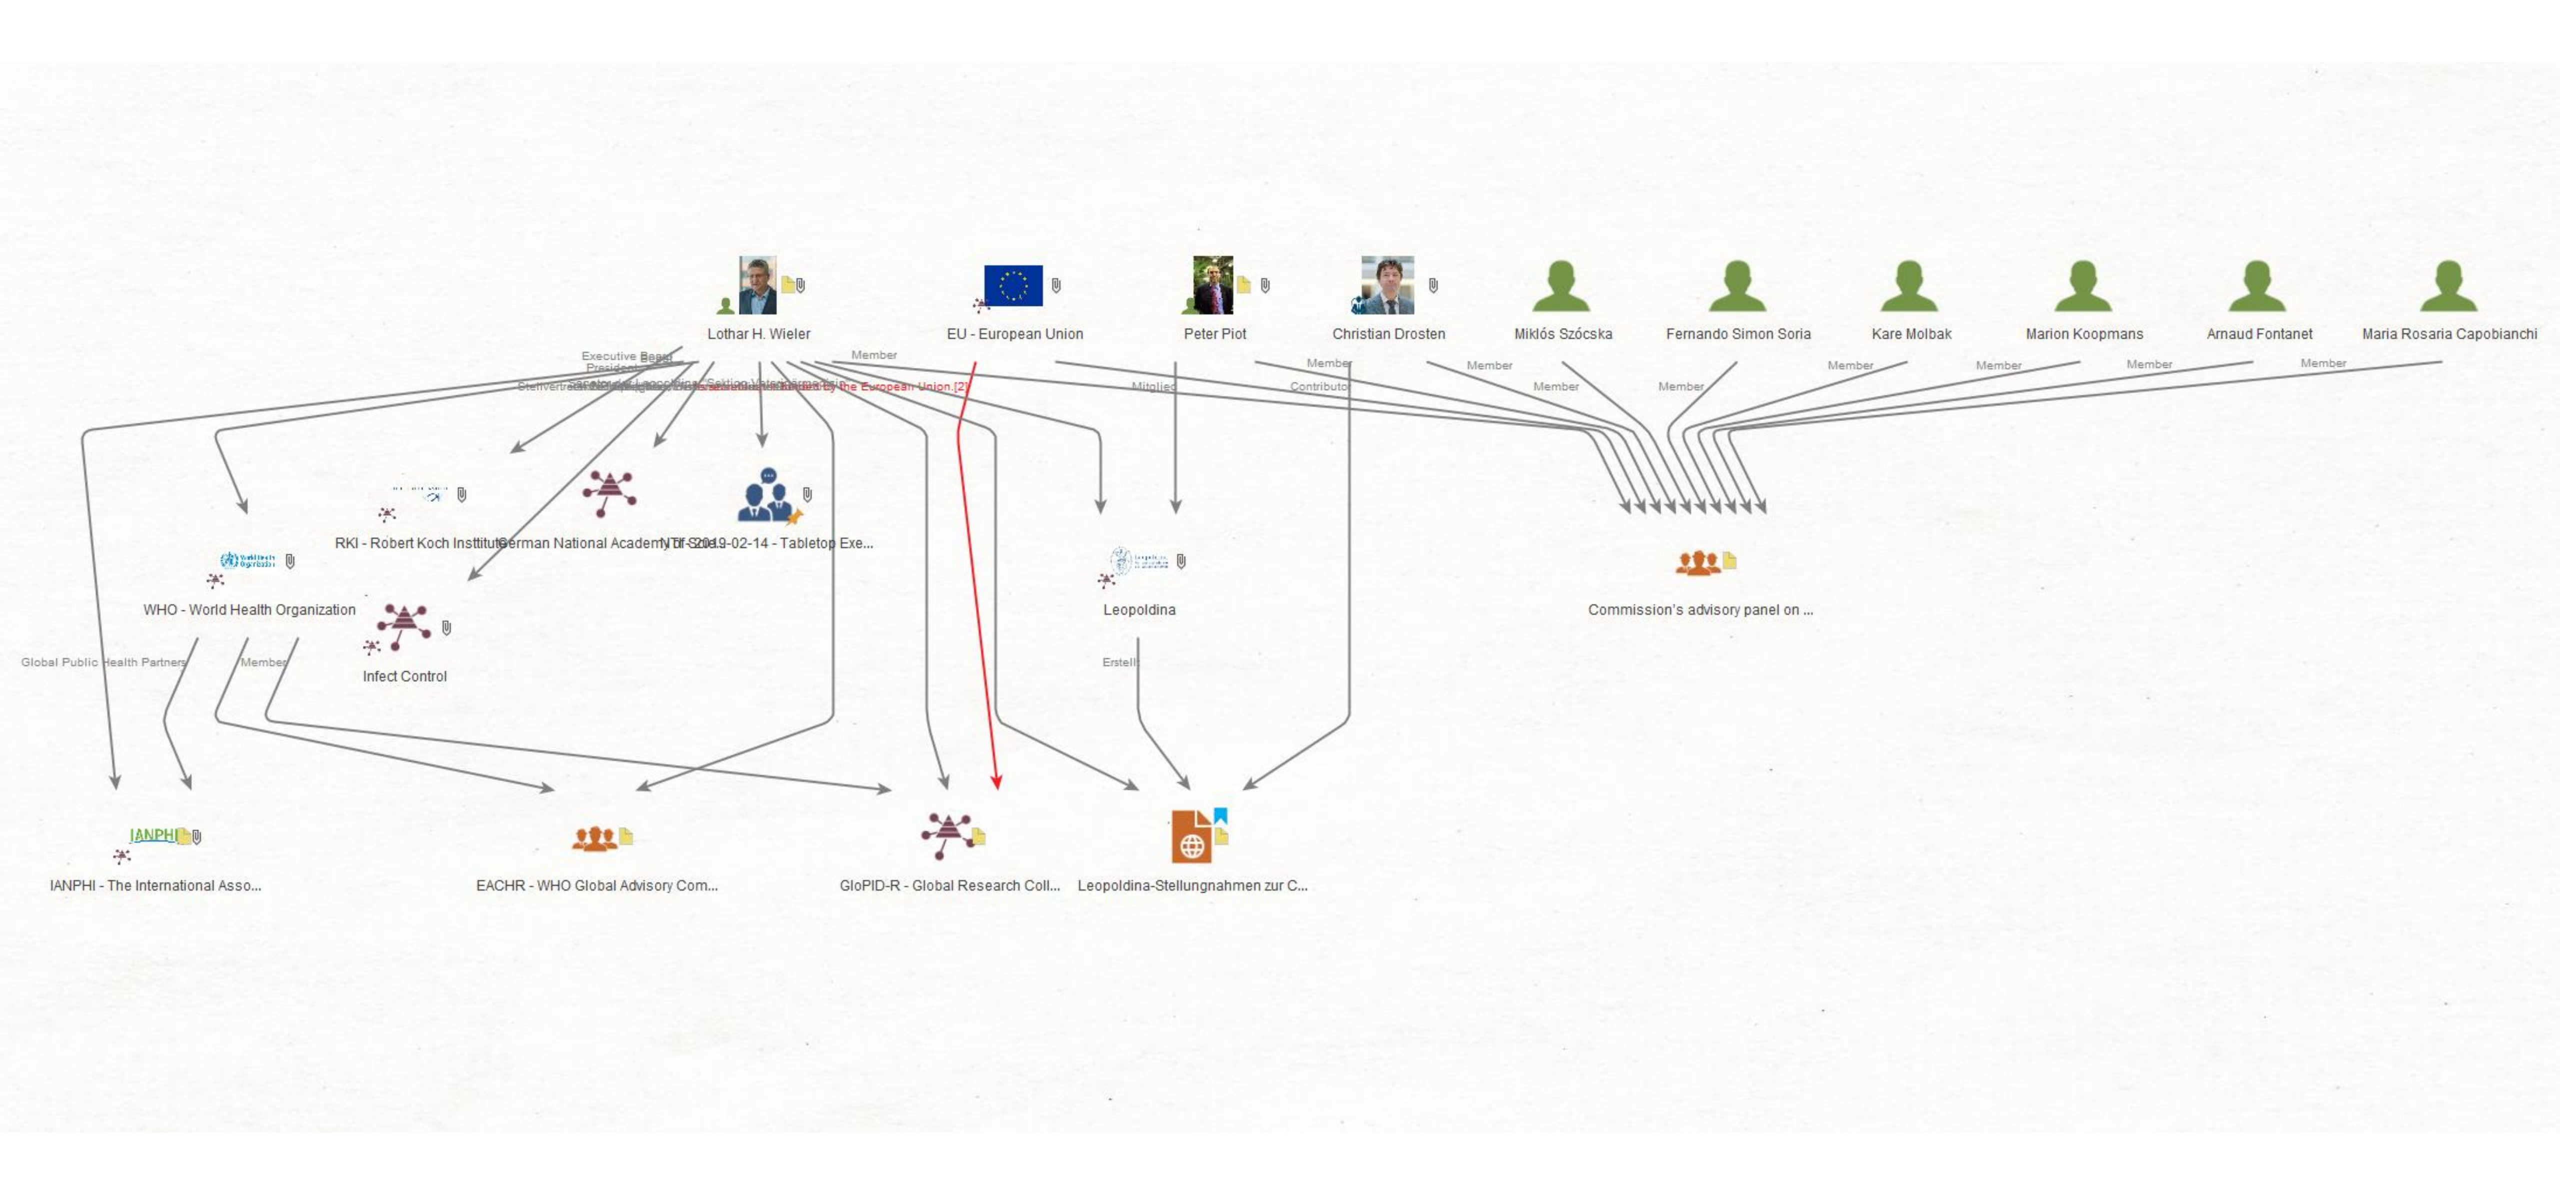

https://ec.europa.eu/health/sites/health/files/vaccination/docs/2019-2022_roadmap_en.pdf
